

Installation Instructions

T1 Network Interface Module P/N 1200307L1

Installing the T1 Network Interface Module

Figure 1 represents the actions required for proper placement of the T1 Network Interface Module. Perform the following steps to install the network module:

1. Remove the cover plate from the appropriate Network slot.
2. Slide the T1 Network Interface Module into the ATLAS 550 chassis until the module is firmly seated in the ATLAS 550 unit.
3. Fasten the thumbscrews at both edges of the network module. Tighten with a screwdriver.
4. Connect the cable to the associated device.
5. Complete the installation of any remaining modules and the Base Unit as specified in the *Installation* chapter of the *ATLAS 550 User Manual*.

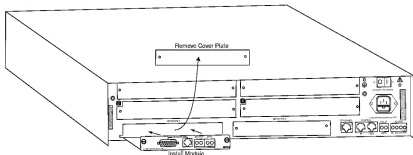

Figure 1. Installing the T1 Network Interface Module

See the *ATLAS 550 User Manual* for operation, configuration, and detailed specifications on the T1 Network Interface Module (ADTRAN P/N 1200307L1).

WARNING: *Option modules are intended to be serviced by qualified service personnel only.*
