Installing and Using the Online Library

NORTEL
NETWORKS™

Copyright © 2001 Nortel Networks

All rights reserved. January 2001.

The information in this document is subject to change without notice. The statements, configurations, technical data, and recommendations in this document are believed to be accurate and reliable, but are presented without express or implied warranty. Users must take full responsibility for their applications of any products specified in this document. The information in this document is proprietary to Nortel Networks NA Inc.

The software described in this document is furnished under a license agreement and may only be used in accordance with the terms of that license. The software license agreement is included in this document.

Trademarks

NORTEL NETWORKS is a trademark of Nortel Networks.

Microsoft, Windows, and Windows NT are registered trademarks of Microsoft Corporation.

All other trademarks and registered trademarks are the property of their respective owners.

Restricted Rights Legend

Use, duplication, or disclosure by the United States Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013.

Notwithstanding any other license agreement that may pertain to, or accompany the delivery of, this computer software, the rights of the United States Government regarding its use, reproduction, and disclosure are as set forth in the Commercial Computer Software-Restricted Rights clause at FAR 52.227-19.

Statement of Conditions

In the interest of improving internal design, operational function, and/or reliability, Nortel Networks NA Inc. reserves the right to make changes to the products described in this document without notice.

Nortel Networks NA Inc. does not assume any liability that may occur due to the use or application of the product(s) or circuit layout(s) described herein.

Portions of the code in this software product may be Copyright © 1988, Regents of the University of California. All rights reserved. Redistribution and use in source and binary forms of such portions are permitted, provided that the above copyright notice and this paragraph are duplicated in all such forms and that any documentation, advertising materials, and other materials related to such distribution and use acknowledge that such portions of the software were developed by the University of California, Berkeley. The name of the University may not be used to endorse or promote products derived from such portions of the software without specific prior written permission.

SUCH PORTIONS OF THE SOFTWARE ARE PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

In addition, the program and information contained herein are licensed only pursuant to a license agreement that contains restrictions on use and disclosure (that may incorporate by reference certain limitations and notices imposed by third parties).

Nortel Networks NA Inc. Software License Agreement

NOTICE: Please carefully read this license agreement before copying or using the accompanying software or installing the hardware unit with pre-enabled software (each of which is referred to as “Software” in this Agreement). BY COPYING OR USING THE SOFTWARE, YOU ACCEPT ALL OF THE TERMS AND CONDITIONS OF THIS LICENSE AGREEMENT. THE TERMS EXPRESSED IN THIS AGREEMENT ARE THE ONLY TERMS UNDER WHICH NORTEL NETWORKS WILL PERMIT YOU TO USE THE SOFTWARE. If you do not accept these terms and conditions, return the product, unused and in the original shipping container, within 30 days of purchase to obtain a credit for the full purchase price.

1. License grant. Nortel Networks NA Inc. (“Nortel Networks”) grants the end user of the Software (“Licensee”) a personal, nonexclusive, nontransferable license: a) to use the Software either on a single computer or, if applicable, on a single authorized device identified by host ID, for which it was originally acquired; b) to copy the Software solely for backup purposes in support of authorized use of the Software; and c) to use and copy the associated user manual solely in support of authorized use of the Software by Licensee. This license applies to the Software only and does not extend to Nortel Networks Agent software or other Nortel Networks software products. Nortel Networks Agent software or other Nortel Networks software products are licensed for use under the terms of the applicable Nortel Networks NA Inc. Software License Agreement that accompanies such software and upon payment by the end user of the applicable license fees for such software.

2. Restrictions on use; reservation of rights. The Software and user manuals are protected under copyright laws. Nortel Networks and/or its licensors retain all title and ownership in both the Software and user manuals, including any revisions made by Nortel Networks or its licensors. The copyright notice must be reproduced and included with any copy of any portion of the Software or user manuals. Licensee may not modify, translate, decompile, disassemble, use for any competitive analysis, reverse engineer, distribute, or create derivative works from the Software or user manuals or any copy, in whole or in part. Except as expressly provided in this Agreement, Licensee may not copy or transfer the Software or user manuals, in whole or in part. The Software and user manuals embody Nortel Networks’ and its licensors’ confidential and proprietary intellectual property. Licensee shall not sublicense, assign, or otherwise disclose to any third party the Software, or any information about the operation, design, performance, or implementation of the Software and user manuals that is confidential to Nortel Networks and its licensors; however, Licensee may grant permission to its consultants, subcontractors, and agents to use the Software at Licensee’s facility, provided they have agreed to use the Software only in accordance with the terms of this license.

3. Limited warranty. Nortel Networks warrants each item of Software, as delivered by Nortel Networks and properly installed and operated on Nortel Networks hardware or other equipment it is originally licensed for, to function substantially as described in its accompanying user manual during its warranty period, which begins on the date Software is first shipped to Licensee. If any item of Software fails to so function during its warranty period, as the sole remedy Nortel Networks will at its discretion provide a suitable fix, patch, or workaround for the problem that may be included in a future Software release. Nortel Networks further warrants to Licensee that the media on which the Software is provided will be free from defects in materials and workmanship under normal use for a period of 90 days from the date Software is first shipped to Licensee. Nortel Networks will replace defective media at no charge if it is returned to Nortel Networks during the warranty period along with proof of the date of shipment. This warranty does not apply if the media has been damaged as a result of accident, misuse, or abuse. The Licensee assumes all responsibility for selection of the Software to achieve Licensee’s intended results and for the installation, use, and results obtained from the Software. Nortel Networks does not warrant a) that the functions contained in the software will meet the Licensee’s requirements, b) that the Software will operate in the hardware or software combinations that the Licensee may select, c) that the operation of the Software will be uninterrupted or error free, or d) that all defects in the operation of the Software will be corrected. Nortel Networks is not obligated to remedy any Software defect that cannot be reproduced with the latest Software release. These warranties do not apply to the Software if it has been (i) altered, except by Nortel Networks or in accordance with its instructions; (ii) used in conjunction with another vendor’s product, resulting in the defect; or (iii) damaged by improper environment, abuse, misuse, accident, or negligence. THE FOREGOING WARRANTIES AND LIMITATIONS ARE EXCLUSIVE REMEDIES AND ARE IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Licensee is responsible

for the security of its own data and information and for maintaining adequate procedures apart from the Software to reconstruct lost or altered files, data, or programs.

4. Limitation of liability. IN NO EVENT WILL NORTEL NETWORKS OR ITS LICENSORS BE LIABLE FOR ANY COST OF SUBSTITUTE PROCUREMENT; SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES; OR ANY DAMAGES RESULTING FROM INACCURATE OR LOST DATA OR LOSS OF USE OR PROFITS ARISING OUT OF OR IN CONNECTION WITH THE PERFORMANCE OF THE SOFTWARE, EVEN IF NORTEL NETWORKS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL THE LIABILITY OF NORTEL NETWORKS RELATING TO THE SOFTWARE OR THIS AGREEMENT EXCEED THE PRICE PAID TO NORTEL NETWORKS FOR THE SOFTWARE LICENSE.

5. Government licensees. This provision applies to all Software and documentation acquired directly or indirectly by or on behalf of the United States Government. The Software and documentation are commercial products, licensed on the open market at market prices, and were developed entirely at private expense and without the use of any U.S. Government funds. The license to the U.S. Government is granted only with restricted rights, and use, duplication, or disclosure by the U.S. Government is subject to the restrictions set forth in subparagraph (c)(1) of the Commercial Computer Software—Restricted Rights clause of FAR 52.227-19 and the limitations set out in this license for civilian agencies, and subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause of DFARS 252.227-7013, for agencies of the Department of Defense or their successors, whichever is applicable.

6. Use of software in the European Community. This provision applies to all Software acquired for use within the European Community. If Licensee uses the Software within a country in the European Community, the Software Directive enacted by the Council of European Communities Directive dated 14 May, 1991, will apply to the examination of the Software to facilitate interoperability. Licensee agrees to notify Nortel Networks of any such intended examination of the Software and may procure support and assistance from Nortel Networks.

7. Term and termination. This license is effective until terminated; however, all of the restrictions with respect to Nortel Networks' copyright in the Software and user manuals will cease being effective at the date of expiration of the Nortel Networks copyright; those restrictions relating to use and disclosure of Nortel Networks' confidential information shall continue in effect. Licensee may terminate this license at any time. The license will automatically terminate if Licensee fails to comply with any of the terms and conditions of the license. Upon termination for any reason, Licensee will immediately destroy or return to Nortel Networks the Software, user manuals, and all copies. Nortel Networks is not liable to Licensee for damages in any form solely by reason of the termination of this license.

8. Export and re-export. Licensee agrees not to export, directly or indirectly, the Software or related technical data or information without first obtaining any required export licenses or other governmental approvals. Without limiting the foregoing, Licensee, on behalf of itself and its subsidiaries and affiliates, agrees that it will not, without first obtaining all export licenses and approvals required by the U.S. Government: (i) export, re-export, transfer, or divert any such Software or technical data, or any direct product thereof, to any country to which such exports or re-exports are restricted or embargoed under United States export control laws and regulations, or to any national or resident of such restricted or embargoed countries; or (ii) provide the Software or related technical data or information to any military end user or for any military end use, including the design, development, or production of any chemical, nuclear, or biological weapons.

9. General. If any provision of this Agreement is held to be invalid or unenforceable by a court of competent jurisdiction, the remainder of the provisions of this Agreement shall remain in full force and effect. This Agreement will be governed by the laws of the state of California.

Should you have any questions concerning this Agreement, contact Nortel Networks, 4401 Great America Parkway, P.O. Box 58185, Santa Clara, California 95054-8185.

LICENSEE ACKNOWLEDGES THAT LICENSEE HAS READ THIS AGREEMENT, UNDERSTANDS IT, AND AGREES TO BE BOUND BY ITS TERMS AND CONDITIONS. LICENSEE FURTHER AGREES THAT THIS AGREEMENT IS THE ENTIRE AND EXCLUSIVE AGREEMENT BETWEEN NORTEL NETWORKS AND LICENSEE, WHICH SUPERSEDES ALL PRIOR ORAL AND WRITTEN AGREEMENTS AND COMMUNICATIONS BETWEEN THE PARTIES PERTAINING TO THE SUBJECT MATTER OF THIS AGREEMENT. NO DIFFERENT OR ADDITIONAL TERMS WILL BE ENFORCEABLE AGAINST NORTEL NETWORKS UNLESS NORTEL NETWORKS GIVES ITS EXPRESS WRITTEN CONSENT, INCLUDING AN EXPRESS WAIVER OF THE TERMS OF THIS AGREEMENT.

Installing and Using the Online Library

The Nortel Networks™ Online Library CD contains product documentation and the event database. You can view the documentation on PC, UNIX, and Macintosh platforms; you can view the event database on PC and UNIX platforms.

Using the Online Library, you can:

- View a specific document.
- Search for information in documents and in the event database.
- Sort event messages by entity name, event code, and severity.
- Access related documents on the World Wide Web.
- Print documents.

This guide provides instructions for installing the Online Library and an overview of the library's features. For detailed instructions on procedures, refer to the online Help. You can find additional information in the readme.txt file that accompanies the installation files for each platform.

To view documents in the Online Library, use Acrobat Reader (see "Installing Acrobat Reader" on page 2). To view the event database, use a Web browser (see "System Requirements" on page 2).

System Requirements

The Online Library runs on platforms that meet the following minimum requirements.

Platform	Hardware	Software	RAM	Disk Space
Microsoft® Windows® 95 Version B or Windows NT® 4.0	486DX, Pentium, Pentium Pro, or Pentium II	Netscape Navigator 3.0 or Communicator or Microsoft Internet Explorer 3.0	16 MB	10 MB
SunOS 4.1.3, SunOS 4.1.4, Solaris	Sun SPARCstation	OpenWindows 3.0, Motif Window Manager 1.2.3, OpenLook 3.0, or CDE 1.0; Netscape Navigator 3.0 or Communicator; Perl 5.003	32 MB	12 MB
HP-UX 10.x	Series 9000 workstation, Model 700	HP-VUE or CDE 1.0; Netscape Navigator 3.0 or Communicator; Perl 5.003	32 MB	12 MB
AIX 4.1	IBM RS/6000 workstation	CDE 1.0 or Motif Window Manager 1.2.3; Netscape Navigator 3.0 or Communicator; Perl 5.003	32 MB	12 MB
MacOS System 7.0	Macintosh 60820, Power Macintosh		6 MB	13 MB

Installing Acrobat Reader

You can view and search documents in the Online Library using either Adobe Acrobat Reader 3.0 with the search plug-in or Adobe Acrobat Exchange 3.0. On this CD, we include Acrobat Reader 3.0 with the search plug-in.

Follow the instructions below, according to your situation:

- If you currently have Acrobat Reader 3.0 with the search plug-in or if you have Adobe Acrobat Exchange 3.0, go to “Starting Acrobat Reader” on [-6](#).
- If you do not know whether your current version of Acrobat Reader 3.0 includes the search plug-in, go to the next section, “Checking for the Search Plug-In.”
- If you have not installed Acrobat Reader 3.0 previously, go to the appropriate installation instructions for your platform.

Checking for the Search Plug-In

To determine whether your current version of Acrobat Reader 3.0 includes the search plug-in:

1. **Start Acrobat Reader.**
2. **View the tools menu.**

If an option called Search appears in the menu, Acrobat Reader includes the search plug-in.

Note: If you currently have Acrobat Reader 3.0 without the search plug-in, you can view documents, but you cannot search for information across documents.

Installing Acrobat Reader on a PC

When you insert the CD into a CD drive on a PC with Windows 95 or Windows NT 4.0 or later, the CD autorun program starts automatically. Follow the instructions on the screen to complete the installation.

Installing Acrobat Reader on a UNIX Workstation

To install Acrobat Reader on a UNIX workstation, mount the CD and run the installation script.

Mounting the CD

The command for mounting the CD varies depending on the specific configuration of the workstation, such as the number of CD-ROM drives. If the suggested mount command fails, consult your operating system documentation.

To mount a CD locally:

1. **Insert the CD into the CD-ROM drive.**

On Solaris, the Volume Manager automatically mounts the CD onto /cdrom/cdrom0; go to “Running the Installation Script” on page 4. If the CD does not automatically mount, see “Manually Mounting the CD on Solaris” on page 5.

2. Log in as root by entering:

su

3. At the password prompt, enter your root password.

4. If a mount point does not already exist for the CD, create one by entering one of the following commands:

- For SunOS or HP-UX, enter:

mkdir /cdrom

- For AIX, enter:

crfs -v cdrfs -p ro -d'cd0' -m /cdrom -A'no' -t'no'

5. Mount the CD by entering one of the following commands:

- For SunOS, enter:

mount -r -t hsfs /dev/<cd_address> /cdrom

- For HP-UX, enter:

mount -F cdrfs -r -o cdcase /dev/dsk/<cd_address> /cdrom

- For AIX, enter:

mount -o ro -v cdrfs /dev/<cd_address> /cdrom

Running the Installation Script

To install Acrobat Reader:

1. Change to the directory for the CD by entering:

cd /<mount_point>/install/unix

2. Determine where you want to install Acrobat Reader:

- For SunOS, the default installation directory is /usr/Acrobat3.
- For Solaris and HP-UX, the default directory is /opt/Acrobat3.
- For AIX, the default directory is /usr/lpp/Acrobat3.

3. Run the installation script by entering:**`./install`**

Note: The installation script detects which operating system is running on the workstation and selects the appropriate default installation. If the script cannot determine the operating system, it displays a list of installation options.

4. Follow the instructions on the screen.

When the installation is complete, the UNIX prompt returns.

5. Log out as root by entering:**`exit`****Manually Mounting the CD on Solaris**

If the CD does not automatically mount on Solaris, stop the vold daemon and manually mount the CD, as follows:

1. Log in as root by entering:**`su`****2. At the password prompt, enter your root password.****3. Display the daemon's process ID by entering:****`ps -ef | grep vold`****4. If there is a process running for the vold daemon, enter:****`kill <process_id>`****5. If a subdirectory does not already exist for the CD, create one by entering:****`mkdir /cdrom`****6. Mount the CD by entering:****`mount -F hsfs -o ro /dev/dsk/<cd_address> /cdrom`**

Installing Acrobat Reader on a Macintosh

To install Acrobat Reader on a Macintosh:

1. **Insert the CD into the CD drive.**
2. **Double-click on the following items in succession:**
 - a. **CD icon**
 - b. **Install folder**
 - c. **Mac folder**
 - d. **Reader folder**
 - e. **Install file**
3. **Follow the instructions on the screen.**

A message appears when the installation is complete.

Starting Acrobat Reader

Start Acrobat Reader as follows:

- To start the reader on a PC or Macintosh, double-click on the Acrobat Reader icon.
- To start the reader on a UNIX workstation, log in as a user other than root and enter:

`<installation_directory>/bin/acroread`

If Acrobat Reader fails to start on the UNIX workstation, and you are running the application via a remote workstation, enter the following commands:

1. **On the local workstation where you want to view the application, enter:**
`xhost <remote_workstation_name>`
2. **On the remote workstation where Acrobat Reader is running, enter:**
`setenv DISPLAY <local_workstation_name>:0.0`

If Acrobat Reader still does not start on the local workstation, consult your window environment documentation.

Optimizing Acrobat Reader

You can optimize your copy of Adobe Acrobat Reader as follows:

1. **From the File menu, choose Preferences > General.**
2. **Turn off “Smooth Text and Monochrome Images.”**

This setting increases the sharpness of text and images on most monitors.

3. **Turn off “Open Cross-Document Links In Same Window.”**

This setting allows you to open more than one PDF file at the same time and to select open files from the Window menu.

4. **Click on OK.**

Configuring the Search Tool

Before you can search for information in the Online Library, you must configure the search tool. To configure the search tool:

1. **Start Acrobat Reader.**
2. **From the tool bar, choose Tools > Search > Indexes.**

The Index Selection window opens.

3. **Click on Add.**

A navigation window opens.

4. **Select the index.pdx file from the CD.**

5. **Click on OK or Open.**

Acrobat Reader adds the search index for this version of the Online Library to the list of available indexes.

6. **Click on OK in the Index Selection window.**

You have now configured the search tool and can search the entire library for information (see “Searching the Entire Library” on page 13).

Configuring the Web Link

You can access information about Nortel Networks products on the World Wide Web from the Online Library. To do this, you must first configure Acrobat Reader to start your installed browser.

Note: Acrobat Reader 3.0 supports one of these browsers: Netscape Navigator 3.0 or later (3.0.1 or later recommended) and Microsoft Internet Explorer 3.0 or later. You must already have access to the World Wide Web and be using one of these browsers to enable the Web link feature.

To configure the Web link:

1. **Start Acrobat Reader.**
2. **From the tool bar, choose File > Preferences > Weblink.**
3. **Turn on the Show Toolbar option.**
4. **Click on Select or Browse.**
A navigation window opens.
5. **Select your installed Web browser and click on Open.**

Note: On UNIX workstations, make sure that the Web browser is in a directory included in your path.

6. **Click on OK.**

Accessing the World Wide Web

After you configure the Web link, you can access Nortel Networks information on the World Wide Web. When you click on links to the World Wide Web, Acrobat starts your Web browser and accesses the Web page where the documents appear. You can also access the Web by clicking on the World Wide Web icon in the Acrobat tool bar.

Note: If you use Windows NT 4.0 and you configure Acrobat Reader to use Netscape Navigator 3.1 or later, you see an error message when you access a URL. Ignore the error message; you can access the URL.

Accessing Documents

After you start Acrobat Reader, a navigation window opens. To access the Online Library:

1. **Navigate to the CD.**
2. **Select the WELCOME.PDF file on the CD.**
3. **Click on Open or OK.**

Before you use the library, configure the search tool and the Web link. (See “Configuring the Search Tool” on page 7 and “Configuring the Web Link” on [8](#).)

Using the Online Library

When you first access the library, the Welcome screen appears. Click on the Main Menu button to access the main menu.

From the main menu, you can move around the library by clicking on the links that appear as buttons or text. To return to the main menu, click on the Main Menu button that appears on every navigation screen.

Getting Help

To access the online Help for Acrobat Reader, open the Help menu in the Acrobat Reader window or use the normal procedure for your platform. For information about configuring the search tool and the Web link, click on CD Help in the main menu.

Finding a Document

Finding a document in the Online Library is like finding a book in your town library. When you enter the town library, you find the room that contains the appropriate category of book. Next you identify the relevant bookshelf, and then you locate the book.

The main menu in the Online Library displays a list of categories. When you click on a category, you see a list of subjects. When you click on a subject, you see a list of document titles. When you click on a title, you open the document.

Navigating a Document

CDBK002A

When you open a document, you usually see a set of bookmarks to the left of the page. These bookmarks are hypertext links to headings in each document. If a bookmark has an arrow pointing to it, you can click on the arrow to reveal bookmarks for subheadings.

Within a document, you can navigate using hypertext links or by paging through the document. You can use hypertext links to the text from the table of contents, list of figures, list of tables, and the index. Cross-references are also hypertext links, and appear blue and underlined.

Returning to the Navigation Pages from a Document

Click on the back icon in the tool bar to display each previous view.

CDBK004A

When you finish viewing a document and want to return to the navigation pages, click on the back icon in the tool bar. Acrobat Reader shows each previous view that you displayed, in order. A view can be a different page in the same document, or even a different size of the same page, so you may need to click several times to display a navigation page. Each navigation page includes a hypertext link to the main menu.

If you optimized Acrobat Reader, you can also select a document from the list of recent files in the Window menu. Selecting a navigation page—Routers, for example—or a document file name, such as 112233AA, returns that file to the screen.

Searching for Information

This section describes how to search for information in the Online Library. You can search either the entire library or the current document.

Searching the Entire Library

Before you can search the entire library, you must configure the search tool (see “Configuring the Search Tool” on page 7). To search the entire library:

1. **Choose Tools > Search > Query.**
The Acrobat Search window opens.
2. **Type the word or phrase that you want to find.**
3. **Set the appropriate options.**

4. Click on Search.

Acrobat searches through all the documents that you specify and produces a list of the documents that match your search criteria. Acrobat assigns each document a relevance ranking. The documents most likely to contain relevant information appear at the top of the list.

5. Select the document that you want to view.

Acrobat searches for the words that you requested in the selected document and displays the first occurrence of those words. To find the next occurrence of the words, choose Tools > Search > Next.

Finding Information Within a Document

To find information within the current document:

- 1. Choose Tools > Find.**
- 2. Type the word or phrase that you want to find.**
- 3. Set the appropriate options.**
- 4. Click on Find.**

Acrobat displays the first occurrence of the words that you requested. To find the next occurrence of the words, choose Tools > Find Again.

Printing Documents

You can print complete documents or selected pages from the library. The printed document appears just as it does on the screen, but without bookmarks. To print a document, choose File > Print and select the appropriate options in the dialog box.

Using the Event Database

You can search the event database and sort event messages by entity name, event code, and severity. See “System Requirements” on page 2 for the software that you need to search the database.

Searching the Event Database on a PC

To search the event database on a PC:

1. **Insert the CD into the CD drive.**

The autorun menu for the Online Library appears.

2. **Click on Search Event Database.**

The Web browser starts and displays the event database query window.

3. **Select or enter the information that you want and click on Submit Query.**

The Web browser displays the appropriate event messages.

Searching the Event Database on a UNIX Workstation

To search the event database on a UNIX workstation:

1. **Insert the CD into the CD drive.**
2. **Mount the CD (see “Mounting the CD” on page 3).**
3. **Enter the following commands:**

```
cd /<mount_point>/events_database  
./search
```

The Web browser starts and displays the event database query window.

4. **Select or enter the information that you want and click on Submit Query.**

The Web browser displays the appropriate event messages.

Acrobat Tool Bar Quick Reference Guide

Set the page display.

Show the page only.

Show bookmarks and page.

Show thumbnails and page.

Set display and selection options.

Move a page on the screen.

Increase the size of the page.

Select text.

Navigate within a document.

Show the first page.

Show the previous page.

Show the next page.

Show the last page.

Navigate through all the documents you have opened.

Show the previous display.

Show the next display.

Set the page size.

Display the actual size of the page.

Fit the whole page in the window.

Fit the page width in the window.

Find information within
the current document.

Search for information in
all documents on the CD.

Perform a search.

Show the results of the last search.

Show the previous hit in the search list.

Show the next hit in the search list.

Start the Web browser and
access the World Wide Web.
