

Section 6 - CMS

ine.com

Task 6.7

- Configure CMS WebRTC to be accessible from the external Candidate PC using the browser or the Cisco Meeting App.
- Configure ExpresswayC to enable the Meeting Server Proxy. Enable Turn server and modify the web administrator port to 7443 on the ExpresswayE.
- Use the Postman to send an API call to create a Turnserver on CMS using the expresswayE inside and outside LAN interface.
- Log in to the Cisco Meeting App or the browser using the account hq-two@ine.com on the Jabber 1 PC.
- Log in to the Cisco Meeting App or the browser using the account hq-one@ine.com on the Candidate PC.
- Your task is complete when HQ One and HQ Two can join the coSpace “Test Space” by dialing 884111111@hq-cms.ine.com
