

Section 6 - CMS

ine.com

Task 6.8

- Configure the system when two IP phones are in a 1:1 call, either user can conference an additional participant using the conference button on the IP phone which will create a bridge on the CMS server that all participants are redirected.
- Use self-signed certificates for all CMS components except for webadmin which will use a CA signed certificate.
- Use coedge.ine.com as a SAN to proxy CMS webbridge over expressway.
- To verify, make a call from Jabber (Tony Stark) on Jabber 1 PC to HQ One, add PSTN line 1 into the call. HQ One must log in to Jabber from the Candidate PC.
