Release Notes

End User License Agreements:
HPE Software License Agreement v1
(https://downloads.hpe.com/pub/softlib2/software1/doc/p1796552785/v113125/eula-en.html)
Important:

HPE GPG Signature Verification

The .sig file on this page can be used with GPG to validate and verify the digital signature of the .frm firmware file on this page.
GPG Signature Verification Procedure:
Verify the signature by running 'gpg --verify ' Name.of.Sig.File'
Note: The HPE Public Key, hpePublicKey2048_key1.pub (fingerprint: 26C2B797), is required to support signature verification and is available from the HPE Software Delivery Repository (SDR) (https://downloads.linux.hpe.com/SDR/keys.html (https://downloads.linux.hpe.com/SDR/keys.html)). Download the HPE Public key and import the key using "gpg --import hpePublicKey2048_key1.pub" command before running the verification command.

Upgrade CVTL to 6.6 Build 122 (or later) when using the MSL3040 with firmware version 3360 (or later).
