- ① indicates the list number of the assembly given on the visual index.
- ② indicates the item number given on the drawing in the catalog section.
- ③ indicates the part number.
- ④ has the following meaning.
 - indicates an assembly or equivalent part.
 - indicates a subassembly or equivalent part included in an assembly indicated by
 - ... indicates an assembly which include subassembly or equivalent part indicated by.
- ⑤ indicates the unit type.
- ⑥ indicates the possible number of the subsystem.
- ⑦ indicates S.P.

If S.P. is written in Remarks, the part or the assembly is spare parts.

- ① indicates the list number of the assembly given on the visual index.
- ② indicates the item number given on the drawing in the catalog section.
- ③ indicates the part number.
- ④ has the following meaning.
 - indicates an assembly or equivalent part.
 - indicates a subassembly or equivalent part included in an assembly indicated by
 - indicates an assembly which include subassembly or equivalent part indicated by.
- ⑤ indicates the unit type.
- ⑥ indicates the detailed list number if any.
- ⑦ indicates the possible number of the subsystem.
- ⑧ indicates S.P.

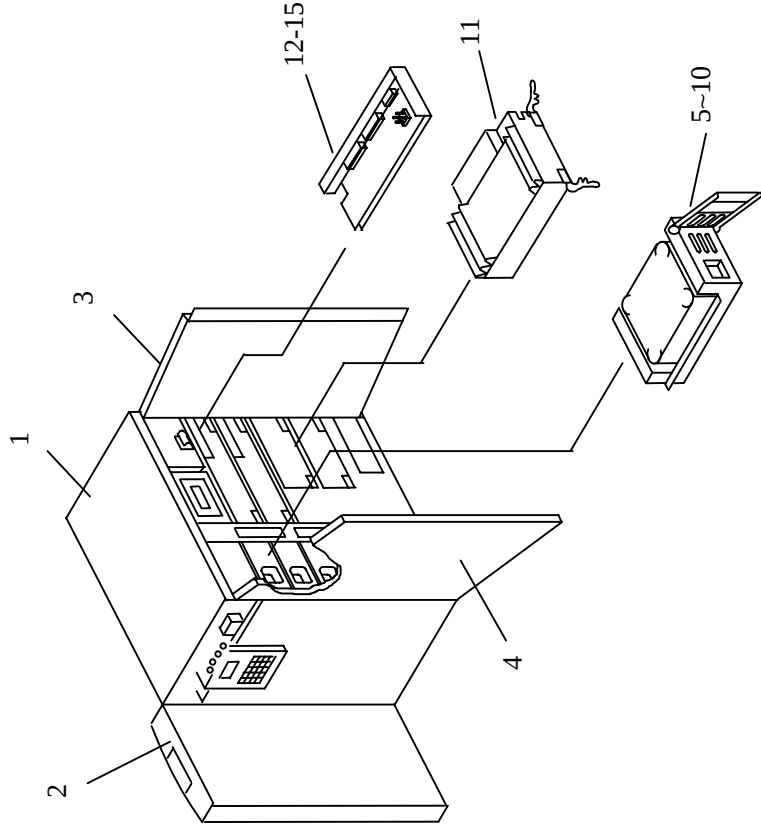

If S.P. is written in Remarks, the part or the assembly is spare parts.
