Access to HDS Protected Files

Certain HDS documents maybe protected. If the files are protected the following window will appear prior to opening the file.

HDS Customers should contact their local HDS personnel for the electronic access key.

HDS personnel can download the electronic access key from the Engineering Services Web pages.

Once the electronic access key file has been emailed placed the file into the HiSource \DATA directory on your hard drive then restart HiSource.

Warning: The electronic key file only allows the PC on which it resides to have access to this file. Only those individuals that require access should be given the electronic key file.
