  The author hereby grants a perpetual license to everybody to use this
  code for any purpose as long as the copyright message is included in the
  source code of this or any derived work.

  Yes, this means that you, your company, your club, and anyone else can
  use this code anywhere you want.  You can change it and distribute it
  under the GPL, include it in your commercial product without releasing
  the source code, put it on the web, etc.  The only thing you cannot do is
  remove my copyright message, or distribute any source code based on this
  implementation that does not include my copyright message.

  I appreciate a mention in the documentation or credits, but I understand
  if that is difficult to do.  I also appreciate it if you tell me where
  and why you used my code.

  DISCLAIMER: As I'm giving away my work for free, I'm of course not going
  to accept any liability of any form.  This code, or the Twofish cipher,
  might very well be flawed; you have been warned.  This software is
  provided as-is, without any kind of warrenty or guarantee.  And that is
  really all you can expect when you download code for free from the
  Internet.
