

## Section 4 - BGP and L3VPN

[ine.com](https://ine.com)

# Task 4.10

- TAMPA needs to connect to the HQ DATACENTER. Configure as per the following requirements:
  - Create a VRF named "INE\_TAMPA" on R4 to identify TAMPA.
  - PE-CE routing protocol is OSPF AREA 0.
  - Configure VRF-lite on R23 with VRF name as INE\_TAMPA.
  - Establish OSPF AREA 0 adjacency between R22 and R23.
  - Interface Loopback0 of R22 and R23 must be in OSPF AREA 0.
  - Once complete, you must be able to ping from 150.22.22.22 to 100.0.1.254.
