

## Section 8 - SD-WAN

[ine.com](https://ine.com)

# Task 8.6

- Configure OSPF AREA 0 adjacency between vEdge3 and R8.
- Configure OSPF AREA 0 adjacency between vEdge4 and R8.
- R8 must advertise all its interfaces in OSPF AREA 0.
- Ensure all sites can ping the Loopback0 interface of R8 and R8 can ping all sites sourcing from the interface Loopback0.
