# Task 6.1

- INE has decided to use the Cisco Meeting Server for allowing users to create their own meeting space and join meetings. Initialize the Cisco Meeting Server as per the following requirements:
  - Initialize Cisco Meeting Server (CMS) with self-signed certificates. You must setup the callbridge, XMPP and the wedadmin.
  - The CMS should be setup with the Pacific time zone.
  - The CMS should be setup with DNS as 11.100.64.9.
  - The CMS should be setup to receive time from the NTP server 11.102.64.254.
