

# Sun Fire™ E2900/V1280 Power Supply Upgrade Installation Guide

---

If you upgrade a system by installing these power supplies, make sure that the system firmware and the Solaris™ Operating System meet the following minimum requirements.

## **Firmware Requirements**

These power supplies require that the system controllers for E2900 or V1280 systems have a minimum firmware level of SC-APP 5.20.1.

## **Solaris Operating System Requirements**

The system requires the Solaris 10 03/05 HW1 OS or the Solaris 9 09/05 OS.

## **Replacement Procedure**

To replace the four power supplies refer to the service manual for your system. Reboot the system controller after the new power supplies are installed. Refer to the system administration manual for your product for complete step-by-step software commands.
