Prepared (Subject resp) XMRDMFI Dmitry Filyushin		No. 12/1543-ANA 901 37 Uen		
Approved (Document resp) BDGSGHDD [Hans Fernqvist]	Checked	Date 2018-05-07	Rev C	Reference

1 Overview

Note: This alarm is deprecated.

1.1 Description

The notification is issued when ECM has taken the active role. The active ECM runs as a master, controlling all actions performed by the standby ECMs.

Major type	193
Minor type	1586561542
MO Class	N/A
Specific Problem	SS7 CAF ECM Goes Active
Severity	SEVERITY_MINOR
Additional Text	ECM Goes Active

The possible causes are as follows:

- The system was started recently and ECM determined which host should be active.
- The active ECM was moved due to the user request.
- The active ECM was moved due to the previously active ECM went down.

2 Procedure

This notification does not require any remedial actions. If the active ECM was moved due to the reasons different from described in the previous chapter, follow instructions in SS7 CAF Troubleshooting Guide.
