Prepared (Subject resp) XNATTOL Nataliya Tolokontseva		No. 16/1543-ANA 901 37 Uen		
Approved (Document resp) BICPAGCB [Hans Fernqvist]	Checked	Date 2016-11-23	Rev B	Reference

1 Overview

1.1 Description

This alarm is issued when the congestion level has changed on a remote SPC.

Major type	193
Minor type	1586562730
MO Class	N/A
Specific Problem	SS7 CAF Congestion Status Change
Severity	SEVERITY_WARNING
Additional Text	Congestion Status Change

The possible causes are as follows:

- The remote SPC has a temporary high load peak.
- The congestion level has been decreased from high to low.

2 Procedure

This alarm does not need any remedial actions, it should be ceased automatically. If the alarm is raised repeatedly contact the next level of maintenance support, see SS7 CAF Troubleshooting Guide for details.
