

Nokia UltraSite EDGE Base Station

Change in the naming of UltraSite Product Documentation releases

**Technical Note
No. 53**

The information in this document is subject to change without notice and describes only the product defined in the introduction of this documentation. This document is intended for the use of Nokia's customers only for the purposes of the agreement under which the document is submitted, and no part of it may be reproduced or transmitted in any form or means without the prior written permission of Nokia. The document has been prepared to be used by professional and properly trained personnel, and the customer assumes full responsibility when using it. Nokia welcomes customer comments as part of the process of continuous development and improvement of the documentation.

The information or statements given in this document concerning the suitability, capacity, or performance of the mentioned hardware or software products cannot be considered binding but shall be defined in the agreement made between Nokia and the customer. However, Nokia has made all reasonable efforts to ensure that the instructions contained in the document are adequate and free of material errors and omissions. Nokia will, if necessary, explain issues which may not be covered by the document.

Nokia's liability for any errors in the document is limited to the documentary correction of errors. NOKIA WILL NOT BE RESPONSIBLE IN ANY EVENT FOR ERRORS IN THIS DOCUMENT OR FOR ANY DAMAGES, INCIDENTAL OR CONSEQUENTIAL (INCLUDING MONETARY LOSSES), that might arise from the use of this document or the information in it.

This document and the product it describes are considered protected by copyright according to the applicable laws.

Change in the naming of UltraSite Product Documentation releases

Validity:

Product	GSM 800	GSM 900	GSM 1800	GSM 1900
Nokia UltraSite EDGE	X	X	X	X

Keywords: GSM, EDGE, BTS, SW, CX4.1, UltraSite

Summary: This Technical Note informs about the change in the naming practice for UltraSite EDGE BTS product documentation releases.

Description: From BTS SW CX4.1 onwards the naming of the BTS Software releases and correction packages will be changed. This has been communicated in Technical Note No. 46.

So far, the UltraSite BTS Product Documentation sets' release identifiers have only indicated the release of the documentation set itself, but the relation of these release identifiers to a BTS SW release has not been clear. In line with the changed naming of BTS SW releases, UltraSite BTS Product Documentation sets (i.e. NEDs) will start to be named according to the related BTS SW releases, e.g. *Nokia UltraSite EDGE BTS, CX4.1, Product Documentation*, which will be the first BTS Product documentation set following this practice. According to the old naming practice it would have been named *Nokia UltraSite EDGE BTS, Release 7, Product Documentation*.

This approach will be in harmony with the naming practice in BSC documentation and BSS system level documentation. It will also provide better visibility on what the documentation contains, as BTS product documentation also includes SW release-specific information: alarm descriptions, commissioning instructions, and SW feature descriptions.

Instructions: None
