CAPACITY MAX SYSTEM SERVER R2.9 FIELD UPGRADES

New Process for R2.9

Customers *must order* the following (2) part numbers to upgrade a fielded CMSS to R2.9:

-**T8480A**, MOTOTRBO 2.9 Capacity Max System Server SW Upgrade (USB)

  (1) Required for each CMSS. Must already be on R2.8. List: $430.00 / Reseller: $0.99 (USD)

-**T8486A**, MOTOTRBO Capacity Max System Server SW Update Launch Pad (DVD)

  (1) Required per system. As a stand-alone application, ESU Launch Pad can be used to upgrade multiple servers. List: $0.00 / Reseller: $0.00 (USD).

Please Plan Ahead

As these part numbers are fulfilled and shipped on physical media (USB/DVD), please allow up to one week for delivery from time of order submission.

Additional upgrade details can be found in the Capacity Max System Release Upgrade Guide within the MOL Resource Center:
