

Mag One

Affordable
Accessories
That Make
Your Work Easier

Get exceptional price and performance
with the only value-priced accessories
tested and certified by Motorola.

More Affordable Accessories for More Productive Workplaces

Mag One accessories extend your radio's functionality and accessibility, providing a wide range of benefits including privacy, hands-free convenience and increased volume for high noise environments. They are the only value-priced accessories tested and certified by Motorola for use with their two-way commercial and professional series radios. Mag One accessories help improve efficiency and productivity in a variety of light-duty and moderate business applications.

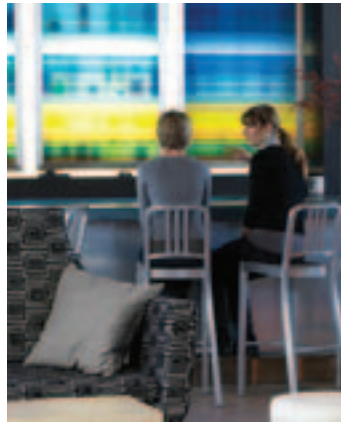

Retail

An associate needs to check stock for a customer. Mag One earpieces help floor personnel and managers communicate in real-time, improving customer service, increasing customer satisfaction and earning customer loyalty.

Hospitality

Mag One headsets help hotel managers and staff coordinate and communicate discreetly to provide the fast, impeccable service that optimizes guest comfort and ensures return trips.

Restaurants

In the restaurant business, reservations team, maitre'd, wait staff and the kitchen must be on the same page at all times. Mag One earpieces deliver clear communications that streamline reservations, service and customer satisfaction.

Building Management

Mag One remote speaker microphones help provide the real-time premises-wide communications that are needed to seamlessly and transparently maximize building security and tenant service.

Get Maximum Value at Minimum Cost

Mag One accessories are designed to keep your business operating smoothly and productively... without straining your budget. The Mag One product portfolio delivers maximum value and price-performance. The earpieces, headsets and remote speaker microphones are optimized for use with Motorola's commercial-series and professional-series two-way radios. All are designed to deliver clear voice communications and exceptional ease of use in a variety of business environments.

Earpieces

Mag One earpieces are small, comfortable and enable users to discreetly send and receive messages from their two-way radios. Choose from earbud or over-the-ear design, depending on user preference.

- Sleek styling
- In-line, easy-to-access compact microphone/PTT
- Adjustable garment clip for greater mobility and convenience
- Voice Activated Transmission (VOX) enables hands-free operation with VOX-capable radios
- Comfortable and lightweight for all-day wearability

Earbud with in-line microphone/PTT/VOX switch
