

CIRCUIT DRAWINGS, CIRCUIT DESCRIPTIONS,  
WIRING LISTS  
PNB PROCEDURES

CONTENTS

1. GENERAL ..... 1  
2. ORDERING INFORMATION ..... 1

1. GENERAL

1.01 This appendix provides ordering information for drawings and circuit description sheets. All orders must indicate the desired delivery date. *In real emergencies an effort should be made to obtain a reproduction of the item that is needed from the appropriate Plant or Engineering office.* This should not be done as a convenience to avoid ordering in the manner prescribed in Part 2.

2. ORDERING INFORMATION

*PNB Drawings*

2.01 Order as follows:

- (a) *Washington-Idaho Area:* Order from Chief Engineer's drafting section, Seattle, on Form GSM 32-A (see Fig. 1), Office Service Bureau Blue Print Order.
- (b) *Oregon Area:* Order from Chief Engineer's file room, 300 Lincoln Building, Portland, on Form P-726, Memorandum Request, (see Fig. 2).

*Western Electric Drawings and CD Sheets*

2.02 Order from Western Electric through regular supply channels on requisition Form P-505. If expediting is required, specify that the order should be placed by teletypewriter and that shipment by air is authorized.

2.03 Orders for drawings in the 80000 to 89999 number series must show the type of office involved, ie, manual, dial or toll.

2.04 *Washington-Idaho Area:* When drawings for plug-in units in the Kent Telco Pool stock are urgently required, call the plug-in administrator (Tel. 206-345-5037). The administrator will reproduce a copy from the Chief Engineer's file and mail it promptly. If the needs are not urgent, order from Western Electric through supply channels as for Western Electric drawings (see 2.02). Requirements for CD sheets will be handled similarly.

2.05 *Oregon Area:* When drawings for Portland Telco Pool stock are required, call the plug-in pool (Tel. 503-288-8456).

2.06 Order drawings and descriptive material for items of outside manufacture on requisition Form P-505. Order through Western Electric with an appropriate notation, eg, "Obtain from Pioneer Electric & Research Corp., 743 Circle Avenue, Forest Park, Illinois."

2.07 AT&T Long Lines drawings and CD sheets are ordered by sending a short teletypewriter message via ADNET to the Long Lines supervisor of office service at the Long Lines area headquarters where the item was prepared (see Table A). The official message address codes for these offices are listed in the Long Lines Administrative Teletypewriter Network Address Code Directory available in most toll test centers.

TABLE A

LONG LINES OFFICE PREFIX  
AND ADNET CODE

LONG LINES OFFICE	DWG OR CD PREFIX	ADNET CODE
White Plains, NY	NEA	LNG 30
Washington DC	EA	LEG 15
Atlanta, Ga.	SA	LSG 15
