

**COMMON LANGUAGE
LOCATION IDENTIFICATION
OREGON**

1. GENERAL

1.01 This section contains Common Language Location Identification Codes for the state of Oregon. The location codes are arranged in two lists:

(a) List I contains the code assigned to each location. The listing is arranged by the alphabetical-numerical sequence of the location code.

(b) List II contains the same information as List I, arranged by the alphabetical sequence of the location names.

1.02 The method of coding locations and the information represented by each of the location code characters is described in Section 005-230-100. The procedures for adding, deleting, or correcting any of the data published in List I or II of this section are also described in Section 005-230-100.

LOCATION CODE	LOCATION NAME	ADDRESS	INTERNAL BUILDING OR OTHER IDENTITY	TRAFFIC CODE
