

Crediting Charges on Test Calls

1. GENERAL

This addendum is issued to change paragraph 2.02 for WADS and WATS service and to supplement paragraph 3 to provide specific information on Outward WATS and INWARD WATS

1.01 Paragraph 2.02 of the main section:
Delete Out-of-Band calls on WADS and WATS services. Add: calls originated on Measured Outward WATS lines and all calls to INWARD WATS numbers.

1.02 Paragraph 3 of the main section
Add:

WATS -
OUTWARD -

The employee responsible for making test calls from measured outward WATS stations must credit charges for the test call. The date of the test call, the outward WATS telephone number and the length of testing time in minutes and seconds on each test call should be handled as outlined.

INWARD WATS

The employee, DDD Service Bureau DSB Bureau, PSC, or the Data Test Center responsible for making a test call to an inward WATS telephone number must credit charges for the test call. The date of the test call, the inward WATS telephone number and the length of testing time in minutes and seconds on each test call should be handled as outlined.

The reason credit tickets must be prepared for all test calls to inward WATS telephones is that there is no way of knowing if the inward WATS telephone number called is or is not a measured WATS line.
