

INTERCOMPANY SERVICES
COORDINATION PLAN
COORDINATION OF PRIVATE
LINE SERVICES

1. GENERAL

1.001 This addendum supplements Section 010-520-101.

1.002 It is issued to clarify Engineering responsibilities (ISC) as they apply in The Pacific Telephone Company and Bell of Nevada.

4. SSO IMPLEMENTATION

The following changes apply to Part 4 of the section:

- (a) 4.02 - added unnumbered paragraph
- (b) 4.03 - revised

4.02 (After 4.02, add the following unnumbered paragraph) For SSO's issued by PAC or Bell of Nevada Marketing, the ECO will be the CPB identified with the Plant Control Office.

4.03 On 2-point Private Line Telephone Services and on all multipoint Private Line Services involving one or two Engineering groups, the ISC Control Team Engineering member in conjunction with the CPB ISC Control Team member, will furnish complete engineering design information on either the original SSO or Engineering Supplement as required.
