

**UPKEEP WORK UNITS
OUTSIDE PLANT
FORM E-4415**

1. GENERAL

1.001 This addendum supplements Section 015-815-010, Issue 7, dated August, 1965.

1.002 This addendum is issued to revise work unit factors for Accounts 4R and 45R. These work unit factors were revised because of the inclusion of contract repair work in the measured category. See Plant Letter 1910-B, dated July 15, 1969.

1.003 The following changes apply to the revised Form E-4415:

| LINE NO. | FROM W. U. PER PLANT ITEM | TO W. U. PER PLANT ITEM |
|----------|------------------------------|----------------------------|
| 15 | 22.00 | 24.00 |
| 28 | 3.18 | 6.19 |

1.004 Changes in the existing Form E-4415 (8-65) are of a relatively minor nature and the revised Form (1-70) will not be available until the present stock is exhausted. Arrangements should be made locally to revise work unit factors on Lines 15 and 28 until the new issue form is available.
