CONTACT SPRING ASSEMBLIES, TEST JACK ASSEMBLIES,
AND NORMAL POST CAMS
PIECE-PART DATA AND REPLACEMENT PROCEDURES

1. GENERAL

1.001 This addendum supplements Section 030-705-803, Issue 9.

1.002 This addendum is issued to add piece-part information for the 197JU and 197JW switches to Table A, to correct a piece-part number for the 197JT switch in Table A, and to specify that three piece-part numbers in Table A are no

longer to be designated "Manufacture Discontinued. Available on special order".

2. PIECE-PART DATA

The following changes apply to Part 2 of this section.

(a) Table A—add the 197JU and 197JW switches and the following piece-part information:

TABLE A

CODE NO.	ORDINARILY USED AS	SPRING AND BRACKET ASSEMBLY (vertical off-normal) (See Fig. 1)	SPRING AND BRACKET ASSEMBLY (rotary step or rotary off-normal) (See Fig. 2)	SPRING AND BRACKET ASSEMBLY (release) (See Fig. 2)	TEST JACK ASSEMBLY (See Fig. 1)
197JU	Digit-Absorbing Sel	P-251598	P-251169	P-251465	P-251762
197JW	Digit-Absorbing Sel	P-251598	P-251169	‡P-251465	P-251762

(b) Table A—Piece-part number for the SPRING AND BRACKET ASSEMBLY (rotary step or rotary off-normal) for the 197JT switch should be changed from P-251159 to P-251169.

(c) Table A—Piece-part numbers P-251459, P-251465, and P-252060 which are marked with a ‡ have been reinstated as good items and are no longer to be designated "Manufacture Discontinued. Available on special order".
