

RECORDER-REPRODUCER
KS-16534, LIST 1
GENERAL
REQUIREMENTS AND ADJUSTING PROCEDURES

1. GENERAL

1.01 This section covers general information for the KS-16534, List 1 recorder-reproducer. This recorder-reproducer with associated amplifier and control facilities is being used initially in the No. 8A and 9A announcement systems.

1.02 The KS-16534 recorder-reproducer consists of two major components, the control unit and the recorder-reproducer mechanism. The requirements and adjusting procedures for these components are covered in separate sections as follows.

1.05 Reference shall be made to Section 020-010-711 covering general requirements and definitions for additional information necessary for the proper application of the requirements listed herein.

1.06 The covers should be kept on the recorder-reproducer at all times except when it is necessary to remove them for maintenance reasons.

1.07 *Make Busy:* Before performing any work on a recorder-reproducer remove the

SECTION NO.	TITLE	NOTE
034-353-702	Recorder-Reproducer KS-16534, List 1 General Requirements and Adjusting Procedures	Contains general information on the apparatus
034-353-703	Recorder-Reproducer KS-16534, List 1 Control Unit Requirements and Adjusting Procedures	Contains requirements and adjusting procedures for the relays in the control unit and also for three relays included in the recorder-reproducer mechanism (see 1.03)
034-353-704	Recorder-Reproducer KS-16534, List 1 Recorder-Reproducer Mechanism Requirements and Adjusting Procedures	Contains requirements and adjusting procedures for the recorder-reproducer mechanism

1.03 The circuit of the KS-16534, List 1 recorder-reproducer is covered by SD-95267-01.

1.04 Since the relays in the recorder-reproducer are in most cases used only in this apparatus, the relay maintenance information is covered in Section 034-353-704 instead of in sections covering comparable relays.

equipment from service in accordance with approved procedures.

1.08 Fig. 1 shows a front view of the KS-16534, List 1 recorder-reproducer with the covers removed. As shown in the figure, the control unit is mounted directly above the recorder-reproducer mechanism.
