

RELAYS
286, 287, AND 288 TYPES
PIECE-PART DATA AND REPLACEMENT PROCEDURES

1. GENERAL

1.001 This addendum supplements Section 040-272-801, Issue 5.

1.002 This addendum is issued to revise 1.11 which covers the new material for the P-19A162 cover, to revise Fig. 1, and to replace the P long-nose pliers with the B long-nose pliers.

1. GENERAL

The following change applies to Part 1 of this section:

(a) 1.11 is revised to read as follows:

"The material of the plastic cover P-19A162 is made from a flame retardant water-white transparent polycarbonate. The replacement date is governed by the depletion date of the formerly used material with no change in the part number. All new relays will be equipped with cover of the new type material"

2. PIECE-PART DATA

The following change applies to Part 2 of this section:

(a) Current Fig. 1 is replaced by the following Fig. 1 which had the callout for the P-10A965 core plate corrected.

3. REPLACEMENT PROCEDURES

The following change applies to Part 3 of this section:

(a) 3.01, List of Tools and Materials should be revised to delete the P long-nose pliers and add the B long-nose pliers. This change in pliers should be made wherever reference is made to P long-nose pliers in the text.
