

TOOLS

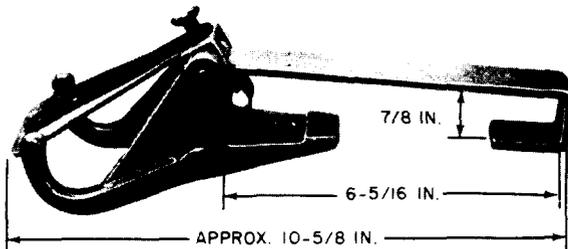

BRACKETS – DESCRIPTION

1. GENERAL

- 1.01 This section covers coded and noncoded Bell System bracket tools.
- 1.02 When this section is reissued, the reason for reissue will be listed in this paragraph.
- 1.03 The information contained in this section supersedes the corresponding information in Sections 074-123-101 and 074-520-101.

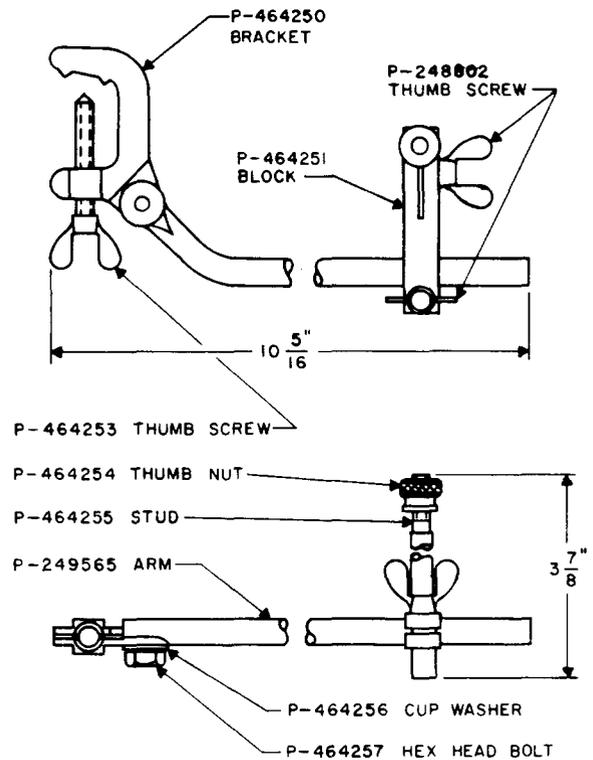

32A **MFR DISC**
Replaced by the 32B bracket.

32B

Replaces the 32A bracket. For use in supporting tools on steps of rolling ladders.

473A

Gauge positioning bracket. For use in checking reciprocating bar-type interrupters.

BRACKET AND FINGER, R-2166

Replaced by the 458A tool.

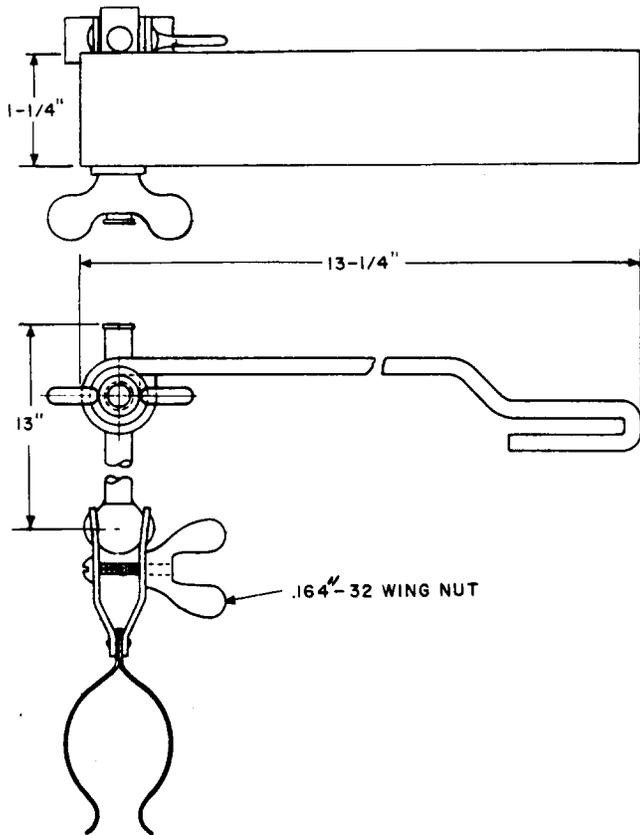

BRACKET, MEZZANINE PLATFORM, ED-92008-01

Consists of a sheet metal base with a clamp and wing nuts for mounting the bracket on the platform hanger rods and two strap details welded to the base for supporting the 504A tool. For use in mounting the 504A tool (soldering copper holder).

NOTICE

Not for use or disclosure outside the Bell System except under written agreement

BRACKET, LAMP, R-80216

Designed to hook over the top angle of step-by-step switch shelves. The bracket has an adjustable arm for holding a portable lamp guard in various positions. For use in checking and adjusting step-by-step switches and associated apparatus.
