

TOOLS
BUSYING – DESCRIPTION

1. GENERAL

- 1.01 This section covers coded Bell System busying tools.
- 1.02 When this section is reissued, the reason for reissue will be listed in this paragraph.
- 1.03 The information contained in this section supersedes the corresponding information in Sections 074-113-101, 074-123-101, and 074-130-101.

370A
370B

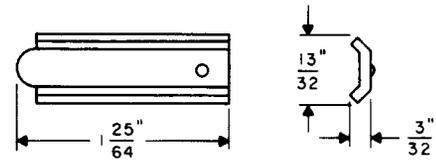

Bank busying tools. Replaces the AECo H-23366 busying tool.

The 370A tool is for use with a W10A cord and a 240D plug for test purposes on 100-point, step-by-step banks.

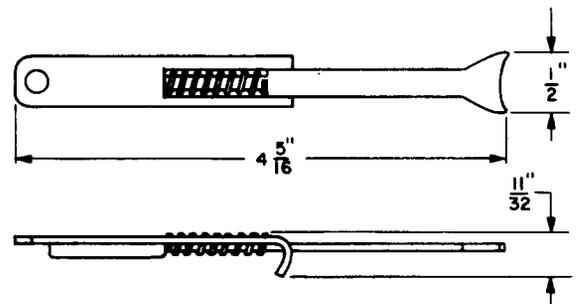

The 370B tool is for use with a W10A cord and a 240D plug for test purposes on 200-point, step-by-step banks.

477A

Make-busy tool. For use on 197- and 198-type switches.

560A

Make-busy tool. For grounding the outside springs of 245-, 254-, 263- and 264-type relays by shorting the springs to the cover ground. On 245- and 254-type relays, the tool clamps on the spring. On 263- and 264-type relays, the tool clamps on the insulator which forces the tool prongs against the spring. Replaces the 530A tool. For use on 245-, 254-, 263- and 264-type relays.

NOTICE

Not for use or disclosure outside the Bell System except under written agreement
