

## CARRIERS

### DESCRIPTION

### TOOLS

#### 1. GENERAL

1.01 This section describes Bell System coded carrier tools.

1.02 This section is reissued to add the AT-7710 B handline carrier tool and to update the practice to the standard format. Since this is a general revision, revision arrows have been omitted.

#### 2. DESCRIPTION OF TOOLS

2.01 **230:** The 230 multiple bank carrier tool (Fig. 1) is used in handling panel multiple banks. Two or more of these tools may be coupled together to obtain greater leverage.

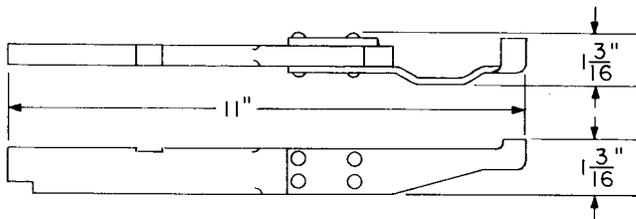

Fig. 1—230 Multiple Bank Carrier Tool

2.02 **AT-7710 B:** The AT-7710 B handline carrier tool (Fig. 2) is made of a steel wire loop attached to a rawhide strap approximately 8 inches long and slit near the opposite end. The slit in the strap permits attaching the carrier to the body belt.
