

CARRYING CASES III

DESCRIPTION

TOOLS

1. GENERAL

1.01 This section describes Bell System noncoded carrying cases within the part or type number range of AT-6475 through AT-8965.

1.02 The reasons for reissuing this section are listed below. Since this is a general revision, revision arrows have been omitted.

- (a) To add the AT-7401, AT-8190, and AT-8965 carrying cases
- (b) To update the practice to standard format.

1.03 See tool index for other carrying case practices.

2. DESCRIPTION OF TOOLS

2.01 **AT-6475:** The AT-6475 pocket tool case (Fig. 1) is a tan leather case with snap fasteners on the cover flap, and is used to carry tools such as screwdrivers and pliers.

NOTICE

Not for use or disclosure outside the
Bell System except under written agreement

2.02 AT-7401: The AT-7401 C installer's case (Fig. 2) is a high-density polyethylene case. The case has a blue base with a tray and a yellow cover with a recessed handle to provide a flat, smooth cover surface. The catch is equipped with a locking ear by which the case may be padlocked. The tray has compartments for accommodating installer drills up to 18 inches in length and smaller items of equipment. Large items are carried in the lower part of the case. The AT-7401 case is 21 inches long by 8 inches wide by 10 inches high.

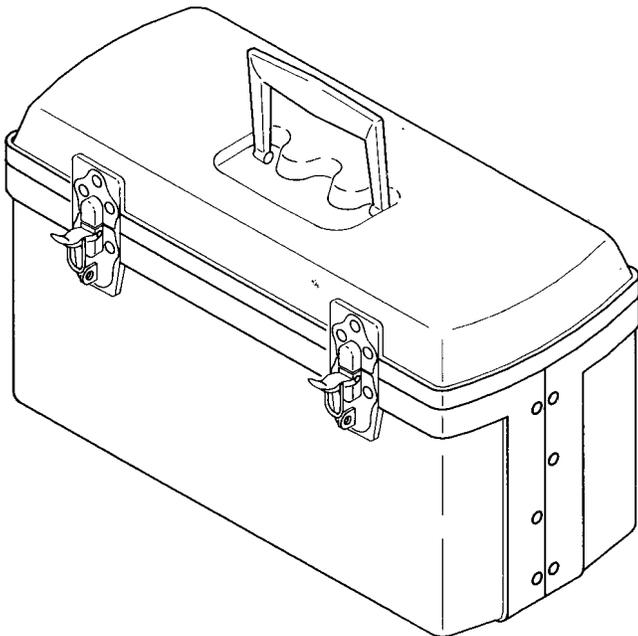

Fig. 2—AT-7401 C Installer's Case

2.03 AT-8190: The AT-8190 B tool case (Fig. 3) is made of black vulcanized fibre and is equipped with a hinged cover, a hasp to permit padlocking, and a "D" ring at each end for attaching a carrying strap. The case is partitioned lengthwise into two large compartments. It contains canvas pockets for tools and small items in the cover and on the hinged fall in the upper part of the body. The AT-8190 case is used for carrying tools and material used by station and PBX repair personnel. The dimensions of the

case are 13-1/2 inches long by 16-1/4 inches wide by 5-7/8 inches high.

2.04 AT-8965: The AT-8965 B tool-material case (Fig. 4) has a hip-roof type top. The bottom consists of a 2-tone blue and yellow box with 31 compartments in 6 trays. The bottom is made from blue high-impact polypropylene, and the top is made from yellow high-impact Acrylonitrile-Butadiene Styrene (ABS) plastic. The dimensions of the case are 18-1/4 inches long by 9-5/8 inches wide by 10-3/8 inches high. The case has two ABS latches with padlock eyes and solid-brass risers. The AT-8965 case is for carrying tools and materials used by field installers and repair personnel.
