

TOOL  
DISASSEMBLY – DESCRIPTION

1. GENERAL

- 1.01 This section covers a coded Bell System disassembly fixture.
- 1.02 When this section is reissued, the reason for reissue will be listed in this paragraph.
- 1.03 The information contained in this section supersedes the corresponding information in Section 074-153-101.

760B

Disassembly fixture. A small plastic panel which provides a plug-in position for both types of 3A and 4A protector units. One position is arranged for the older type units and the other position is arranged so that the snap-on housing of the 3A5A and 4A5C protector units may be easily removed. Intended for use in repairing those protector units at central office locations. Replaces 760A tool.

**NOTICE**

Not for use or disclosure outside the  
Bell System except under written agreement
