

TOOLS GUIDE — DESCRIPTION

1. GENERAL

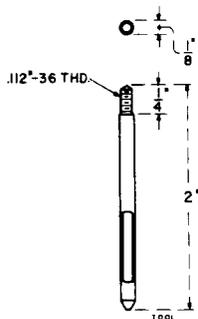

1.01 This section covers noncoded Bell System Guide Tools.

1.02 This section is reissued to add the 641A tool. The Equipment Test List is not affected.

1.03 The information contained in this section supersedes the corresponding information in Section 074-635-101.

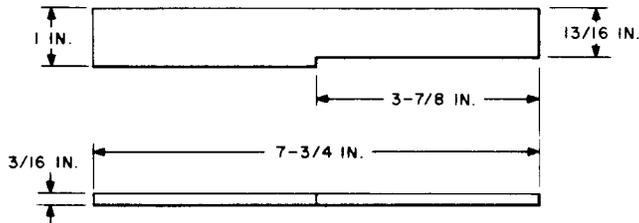

2. DESCRIPTION OF TOOLS

641A

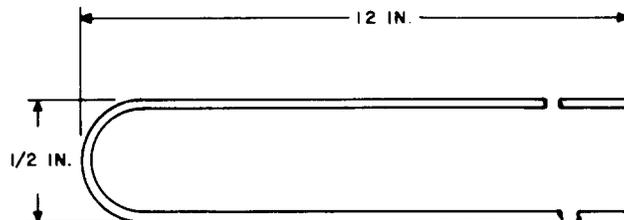

For use as an aligning guide to facilitate mounting No. 4 and 5 type dials on coin collectors.

KS-14443

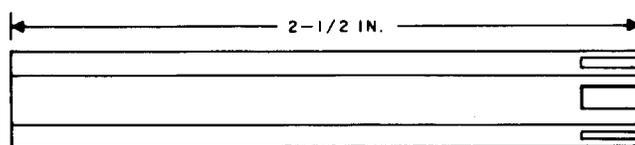

For use in replacing worn contact springs of sequence switches.

KS-21029

Hairpin Guide. Used as an aid for replacing defective hairpin select wires with the vertical units of a small crossbar switch mounted in an equipment frame.

P-36A921

Drill Guide. For use in removing rivets of Dzus fasteners.

NOTICE

Not for use or disclosure outside the
Bell System except under written agreement
