BELT AND BELT LACER—DESCRIPTION

1. GENERAL

- 1.01 This section covers a noncoded Bell System belt and belt lacer.
- 1.02 This section is reissued to add the AT-7397 belt. The Equipment Test List is not affected.
- 1.03 The information contained in this section supersedes the corresponding information in Section 074-680-101.

2. DESCRIPTION OF TOOLS

B POUCH BELT (AT-7397)

For use by station installers and repair-persons for carrying a tool pouch and a handset. It will also carry the B test set holder which provides dual attachment for a handset and the new 188A test set voltage probe. It is a black-coated, woven belt equipped with a quick operating type buckle, an attachment ring, and is adjustable in lengths from approximately 30 inches to 50 inches. The belt can be disassembled to allow the equipment ring to be either removed completely or placed on the left or right side as desired.

LACER, BELT, CLIPPER BELT LACER COMPANY, "CLIPPER" NO. 1 (OR EQUIVALENT)

For belts not over 3/16-inch thick and 2 inches wide. Uses "Clipper" No. 1 belt hooks only. For use on pneumatic ticket distributing systems.

NOTICE

Not for use or disclosure outside the
Bell System except under written agreement
