

TOOLS
NEEDLES – DESCRIPTION

1. GENERAL

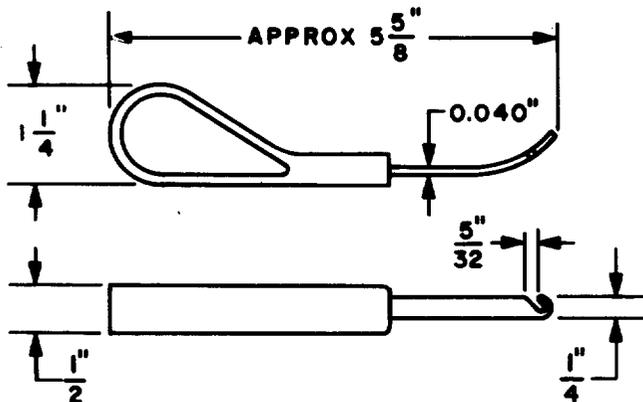

- 1.01 This section covers coded and noncoded Bell System needles.
- 1.02 When this section is reissued, the reason for reissue will be listed in this paragraph.
- 1.03 The information contained in this section supersedes the corresponding information in Sections 074-107-101 and 074-680-101.

284

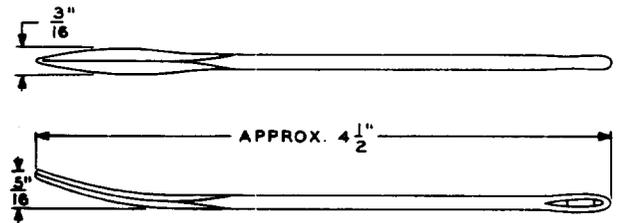

Straight cable sewing needle. For use in sewing local cable (PBX installation only).

287

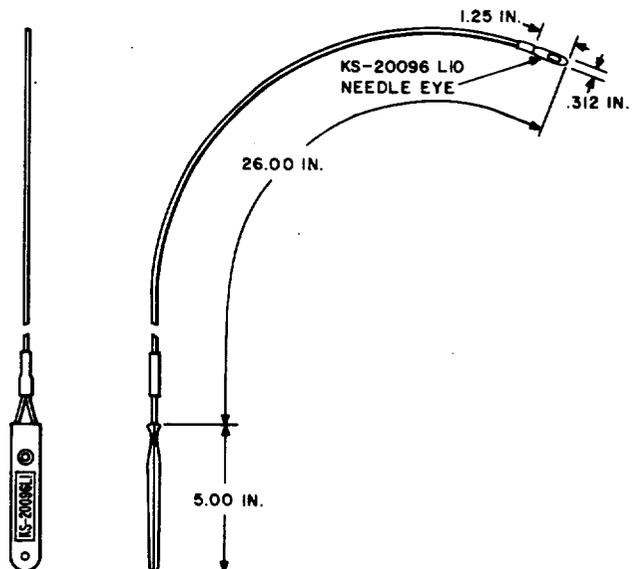

Curved cable sewing needle. For use in sewing local cable (PBX installation only).

R-59237

Sack needle. Steel needle for use in sewing cable forms (PBX installation only).

KS-20096 L1

A curved, insulated, metal rod equipped with an insulated eye at one end arranged to thread four 22-gauge insulated wires. The other end is provided with an insulated handle. The KS-20096 L10 needle eye may be ordered as a separate item to replace damaged eyes on KS-20096 L1 needles in the field. For use in running jumpers on the No. 1 ESS main distributing frame.

NOTICE

Not for use or disclosure outside the Bell System except under written agreement
