

TOOLS

REEL, WIRE—DESCRIPTION

1. GENERAL

KS-8047, L2

1.01 This section covers noncoded Bell System wire reels.

1.02 This section is reissued for the following reasons:

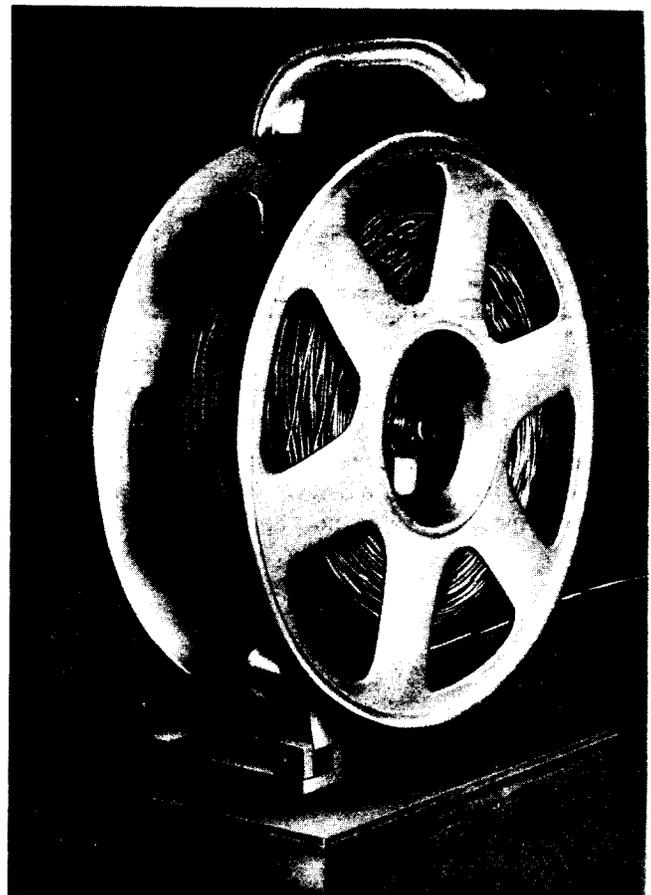

- To show KS-8047, L1 and KS-8047, L2 are replaced by KS-21955, L1 wire reel
- To correct the figures on Page 2
- To rate the KS-8289 wire reel Mfr Disc.

Because this is a general revision, no revision arrows have been used. The Equipment Test List is not affected.

1.03 The information contained in this section supersedes the corresponding information in Section 074-750-101.

KS-8047, L1

This reel will be temporarily retained for maintenance and special requisitions. The KS-8047, L1 wire reel may be converted to a KS-8047, L2 wire reel by adding a KS-8047, L101 brake kit. Replaced by the KS-21955, L1 wire reel.

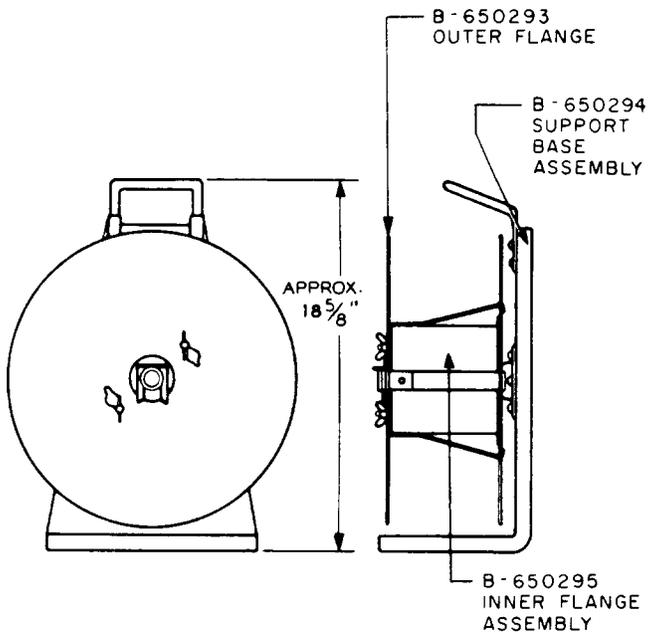

For use in central offices for holding distributing frame wire. This reel will be temporarily retained for maintenance and special requisitions. Replaced by the KS-21955, L1 wire reel.

NOTICE

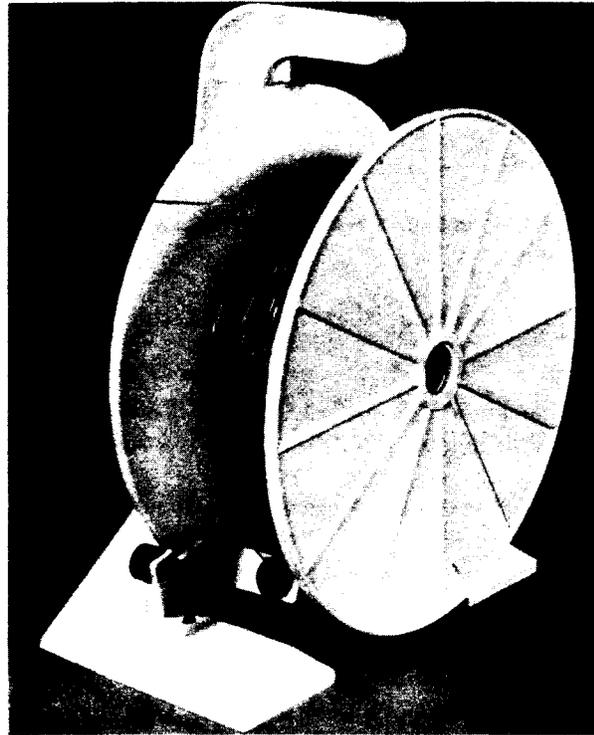

Not for use or disclosure outside the
Bell System except under written agreement

KS-8289—MFR DISC.

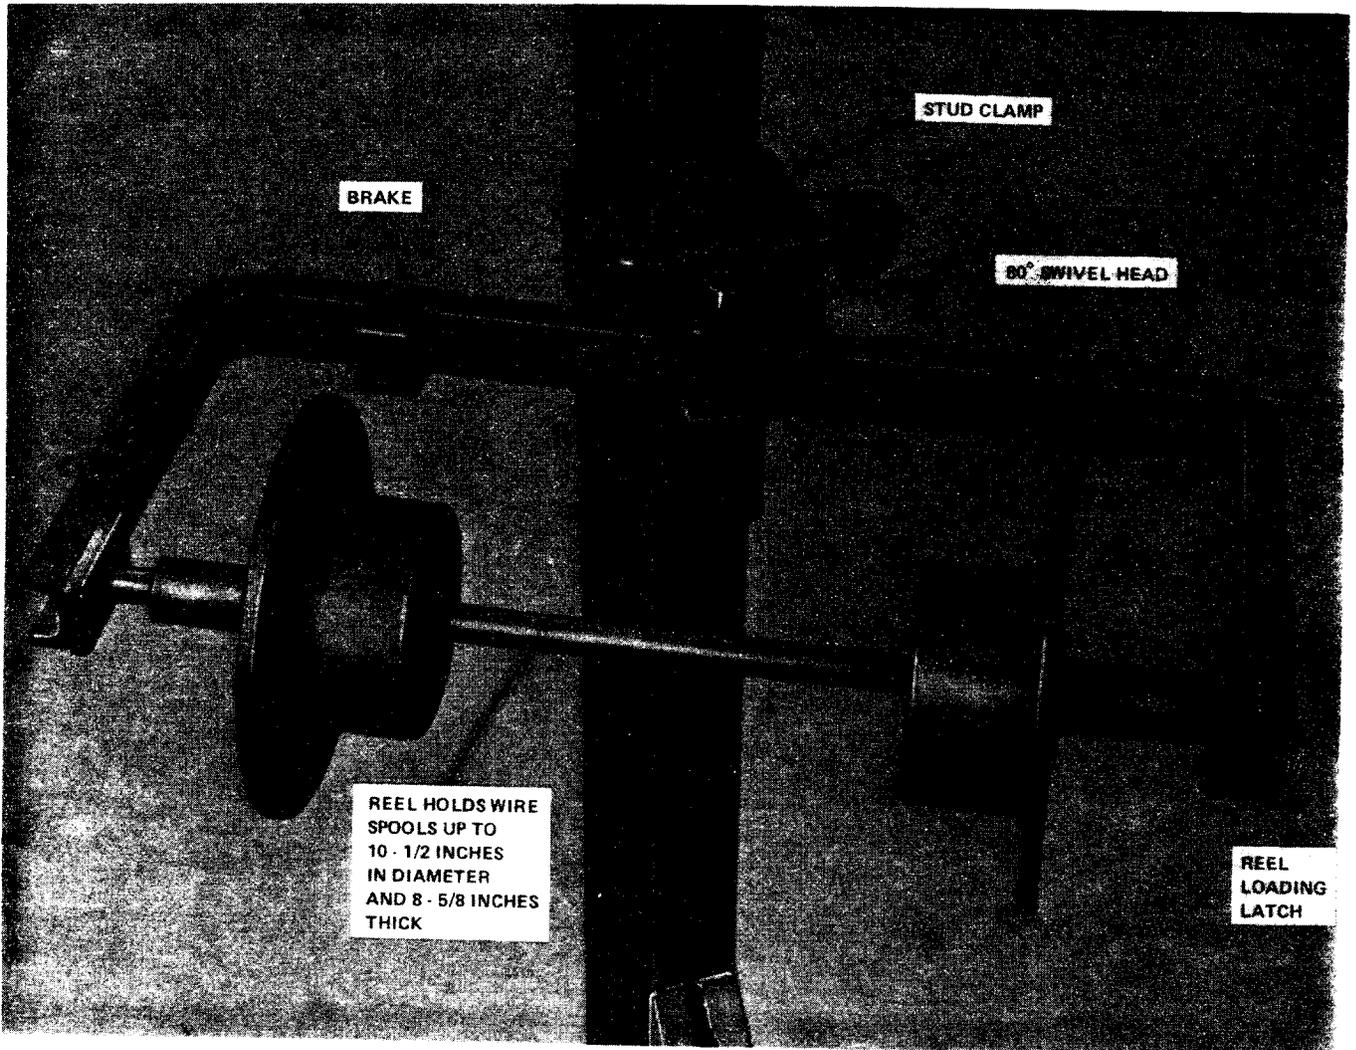

For use in central offices for holding distributing frame wire. The KS-8289 wire reel has been Mfr Disc. There is no replacement.

KS-21955, L1

For use in central offices for holding distributing frame wire. The KS-21955 wire reel replaces the KS-8047, L1 and L2 wire reels.

REEL, WIRE, B-STATION, AT-8903

For use in holding the G-station wire on KS-22084 station wire spools. Provides a stable dispensing unit and swivels up to 80°. Contains a braking

mechanism to control wire release speed. Unit may be clamped to a vertical post up to 2 inches wide.
