

EYE PROTECTION

1. GENERAL

1.001 This addendum supplements
Section 075-142-301, Issue 2.

1.002 This addendum is issued to in-
clude information on the Willson
Mono Goggle and to stipulate the wear-
ing of safety glasses while driving or
riding in a company vehicle.

4. PLASTIC GOGGLES

The following change applies to
Part 4 of the section:

- (a) Paragraph 4.06 - Added
- (b) Paragraph 4.07 - Added

4.06 The #91 Large Nose Willson Mono
Goggle is a coverall type of
goggle which will fit over prescription
glasses. The lens and frame are made
of plastic. The headband is one piece
elastic and is adjustable.

4.07 The Willson Mono Goggle shall be
worn when performing work opera-
tions outlined in Paragraph 5.02 of the
section.

5. USE OF EYE PROTECTION

The following change applies to
Part 5 of the section:

- (a) Paragraph 5.01 - Revised

5.01 In order to minimize the oppor-
tunities for overlooking the use
of protection when it is required,
"regular" eye protection will be worn
by all tool-using employees at all
times, including driving or riding in a
company vehicle, except while perform-
ing work operation of a clerical nature,
attending meetings, or performing work
operations requiring "special eye pro-
tection" as outlined in Paragraph 5.02
of the section.

6. CARE OF SAFETY GLASSES AND PLASTIC
GOGGLES

The following change applies to
Part 6 of the section:

- (a) Paragraph 6.04 - Added

6.04 The lens of the Willson Mono
Goggle is made of plastic. Do not
clean dust from the lens with a dry cloth
as the dust has a tendency to act as an
abrasive and cause scratches on the lens.
The lens should be cleaned by flushing it
with clean water and drying with a clean
cloth.
