

WIRE WRAPPING TOOLS  
DESCRIPTION AND USE

1. GENERAL

1.01 This addendum to Issue 3 of this section is reissued to update information on the wire gauges used by the Gardner Denver 505244 Unwrap Tool. Minor changes to the text and Table 1 of this section are also included.

1.02 The changes previously included in Issue 1 of this addendum are also included in this issue. The new changes appearing for the first time in this addendum are indicated by marginal arrows.

1.03 Microfiche Copy Recipients. Remove Issue 3, Addendum 1, of this section from the file and replace it with the microfiche copy identified as Issue 3, Addendum 2. Changes are marked in the replacing copy.

1.04 Paper Copy Recipients. In ink or red pencil, make the changes indicated in part 2 of this addendum. Write "See Addendum" in the margin next to each change. File this addendum directly in front of the addended practice.

2. CHANGES

2.01 After the last sentence of paragraph 2.08, add "The OK Machine and Tool Corporation Model G100/R3278 is an alternate for the Gardner Denver Model 14H-1 C (Figure 4)."

2.02 Make the following changes in Table 1 :
