STAPLES

1. GENERAL

1.01 This section provides general descriptive information on staples provided for use with standard staplers.

1.02 This section is reissued to:

- Add the K- and L-type staples which replace the H- and J-type staples

- Add information on the M-type staple

- Delete information on the E-type stapler.

Since this reissue covers a general revision, arrows ordinarily used to indicate changes have been omitted.

2. IDENTIFICATION

PURPOSE

2.01 The K- and L-type staples are used for fastening H- and D-station wire, and small gauge ground wire, and is intended for use in the P-type stapler.

2.02 The G staple is used for fastening inside wire cables up to 1/2-inch in diameter and is intended for use in current D-stapler or model T-75 stapler.

2.03 The M-staple is used for attaching H- and D-station wire and is intended for use in the P-type stapler.

2.04 The K- and L-type staples are made of 0.023-inch by 0.051-inch wire. Each has a flat crown and a leg spread of 0.190 inch with a leg length of 11/32 inch.

2.05 The K staples are intended for indoor use and furnished with a zinc or ivory finish.

2.06 The L staples are intended for outdoor use and furnished with a copper-coated finish.

2.07 The G staples have a 1/2-inch crown available in a 5/8-inch leg length. The Arrow T-75 staples have a 1/2-inch crown available in 9/16-, 5/8-, and 7/8-inch leg lengths. The G or T-75 staples are interchangeable and used with the D or Arrow T-75 staplers regardless of leg length.

2.08 The G staples are intended for indoor use and furnished with a zinc finish.

2.09 The M staples are made of 0.023-inch by 0.051-inch monel wire. Each staple has a flat crown and a leg spread of 0.190 inch with a leg length of 11/32 inch.

2.10 The M staples can be used indoor or outdoor and are furnished with a monel or monel beige finish.
