1. General

1.1 Purpose

This appendix identifies required first aid kit contents as specified by state regulations in the Northwest Region.

1.2 Filing Instructions and Supersedures

Discard all previous issues and associated addenda of this appendix and file this issue numerically in your GTE Telephone Operations practices set after Practice 117-300-002.

This appendix supersedes and cancels:

- All policies, procedures, general instructions, letters, and memoranda which address this subject.
- Any document which provides information contrary to the information contained in this appendix.

1, General, continued

- 1.3 Reason for Reissuing** This appendix was reissued to include a revision of First Aid Kit Contents and Inspection - Northwest (Form 90004383, Exhibit 1). In the form, the requirement for stocking latex gloves was changed to a requirement for stocking nitrile gloves.
- 1.4 Responsibility** This appendix was published by the GTE Telephone Operations Administrative Services Department. For more information about this practice, contact me Headquarters Employee Safety Services Department.
- 1.5 Disclaimer** This appendix was prepared solely for the use of GTE Telephone Operations. It must be used only by its employees, contractors, customers, and end users when installing, operating, maintaining, and repairing GTE Telephone Operations' equipment, facilities and services. Any other use of this practice is forbidden. The information contained in this practice may not be applicable in all circumstances and is subject to change without notice. By using this practice the user agrees that GTE Telephone Operations will have no liability (to me extent permitted by applicable law) for any consequential; incidental, special, or punitive damages mat may result.

2. Inspecting First Aid Kits

- 2.1 Form** Place the First Aid Kit Contents and Inspection - Northwest form (see Exhibit 1) inside each kit for:
- Maintenance.
 - inspection.
