

47C POWER UNIT

IDENTIFICATION, INSTALLATION, AND CONNECTION

1. GENERAL

1.001 This addendum supplements Section 167-449-101, Issue 1. Place this sheet ahead of Page 1 of the section.

1.002 This addendum is issued to revise the note on the 51A lamps and to revise the procedure for charging the KS-20390 L1 battery.

2. IDENTIFICATION

The following change applies to Part 2 of the section.

Revise the note following 2.07 to read as follows:

Note: When the 10-volt ac load exceeds thirty-five 51A lamps, the load should be split

and connected to both 10V terminals provided on the 47C power unit.

3. INSTALLATION

The following change applies to Part 3 of the section.

Change 3.01 to read as follows

3.01 The following charging procedure should be performed at the garage prior to taking the 47C power unit to the Key Telephone Service facilities.

(a) Plug the battery into the 47C power unit.

(b) Connect a 19 or 20 type power unit (KSU Power Supply). See Fig. 3.
