

DIAL CENTRAL OFFICE SERVICE INDEX PLAN

GENERAL

1. GENERAL

1.01 This addendum supplements Section 201-102-001, Issue 4, dated April, 1965. It is issued to expand the information to include source data for Traffic observed locations on the Mechanized Customer Trouble Report Analysis Plan for Measured Exchanges and to provide for the reporting of results.

1.02 To obtain totals of Trouble Codes 5, 7 and 8 Central Office Troubles, Test OK's and Found OK In's for each equipment entity use information shown on the "T" analysis data in measured exchanges.

1.03 Paragraphs in 201-102-001 are supplemented and Paragraph 5.03 added. The changes are as follows:

3.06 In measured locations get Central Office Codes, Found OK's-In and Test OK's from the "T" Analysis Data. Have the local test center give you a copy of this data.

4.03

(b) In measured locations get Central Office Codes (Code 50 through 59) and Found OK-In (Code 81) from Form SW-6345, Analysis Data "T".

(c) In measured locations get Test OK's (Code 71) from Form SW-6345, Analysis Data "T".

5.03 The following reports should be forwarded to the Supervisor of Corporate Books for observed entities only:

Monthly - One copy of each District, Division and Area report by the 10th of the succeeding month.

Quarterly - Two copies of the Area quarterly report by the 15th of the month after close of quarter.

Annually - Two copies of yearly Area report by the first day of February of the next year.
