

**NO 1A AUTOMATIC MESSAGE ACCOUNTING RECORDING CENTER
NO. 2B AND NO. 5 ELECTRONIC SWITCHING SYSTEMS
TRANSLATIONS FOR GENERIC 4**

1. GENERAL

1.001 This addendum supplements Section 201-900-037, Issue 1. Place this pink sheet ahead of Page 1 of the section.

1.002 This addendum is issued for the following reasons:

- (a) To correct the last sentence of paragraph 4.03
- (b) To correct the table reference in paragraph 5.06.

2. CHANGES TO SECTION

2.001 On Page 4, paragraph 4.03, change the last sentence to read as follows:

Major components of this formula are the high day busy hour timed AMA CCS (100 call

seconds) and the number of modules equipped in the ESS office.

2.002 On Page 5, paragraph 5.06, the first and second sentences should read as follows:

Table A of SD-5P006, sheet B11B, provides for the assignment of all AMARC channels to an APC number. If any ESS entities are planned for an AMARC, the assignment of channel numbers to other sensor types should be carefully determined, using Table A of SD-5P006, sheet B11B, so that a minimum of channel reassignments are required when an ESS entity is added.
