EQUIPMENT TEST LIST

SENDERS AND REGISTERS — 4M

NO. 4A AND 4M TOLL SWITCHING SYSTEMS

1. GENERAL

1.01 This section provides an index and information access system to locate the standard tests applicable to equipment listed in the preceding table of contents. Test classification and frequency of periodic routine are also provided.

1.02 This ETL is reissued to incorporate changes in paragraphs 5.1, 5.2, and 5.5. An arrow has been placed to the left of each line which has been changed.

1.04 Routine test information is arranged in the following order from left to right: Section number, issue/addendum, test letter or paragraph number, test title, test class, frequency, and the last space is for a locally assigned job number.

1.05 Section 010-300-011 provides Equipment Test List instructions.

Printed in U.S.A.
