DIAL TONE MARKER APPLIQUE CIRCUIT
NO. 5 CROSSBAR OFFICES
ARRANGED FOR PBX DIAL TRANSFER

1. GENERAL

1.1 This section describes a method of testing the ST-521117 dial tone marker applique circuit in offices arranged for PBX Dial Transfer.

1.2 No special tests will be required for the applique portion of the dial tone marker. This modification will be tested when making tests of the Transfer Trunks (ST-521113).
