LONG HAUL FOREIGN EXCHANGE

TRUNK CIRCUIT (SD-2H180) OPERATIONAL TESTS

NO. 2 AND NO. 2B ELECTRONIC SWITCHING SYSTEMS

1. GENERAL

1.001 This addendum supplements Section 232-211-501, Issue 1. Place this pink sheet ahead of Page 1 of the section.

1.002 This addendum is issued to include changes due to EF-2 and 2B-EF-2 generic programs. This addendum does not effect the Equipment Test List.

2. CHANGES TO SECTION

2.001 On Page 1 add the following paragraph:

1.02.1 New (conventional) service order codes were adopted for use with the EF-2 and 2B-EF-2 generic programs. However, the translations can be configured with the old (No. 2 ESS unique) service order codes as an option. These old codes are common to all previous No. 2 and No. 2B ESS generic programs. The EF-2 and 2B-EF-2 generic programs can be arranged to recognize either option. In this section the term "conventional (new)" or "No. 2 ESS unique (old)" is used to identify the service order code for the keywords in each TTY input message given.

2.002 In 1.03, delete the first two sentences and add the following:

The long haul foreign exchange trunk circuit provides the necessary functions to handle both incoming and outgoing calls.

2.003 In 3.02, before the system response, add the following:

The system response for offices using No. 2 ESS unique (old) code is as follows:

2.004 In 3.02, after the system response and before the explanation of variable fields, add the following:

The system response for offices using conventional (new) code is as follows:

AR VY TRK aaa bbb
OE nn gcsl
PDA cxzy b
SP ss rrbb

2.005 On Page 3, Step 8, for No. 2B ESS offices, change ss = Number of trunk scanner in decimal (00-11) to ss = Number of trunk scanner in decimal (00-11 for offices using 2B-EF-1 generic program) or (00-30 for offices using 2B-EF-2 generic program).

2.006 On Page 10, Fig. 2 title, change Receiver to Receiving.

2.007 Delete the word CENTREX from the title.
