

NUMERICAL INDEX — DIVISION 233

3“ESS*” SWITCH

1. General

1.01 This Index provides a listing of Bellcore-owned Practices in Division 233. The prefix “BR” to each Practice number has been omitted in this listing purely for ease of reading the Practice number in a two-column format. For ordering purposes specify BR-233-000-000.

1.02 A bullet (•) indicates an item that has been added or changed since the previous issue of the Index.

1.03 A square (□) indicates a canceled item. Information relating to the cancellation will be shown in a note following the Practice. Canceled Practices and related notes will be deleted upon reissue of the Index.

1.04 A star (★) indicates a Practice SPCS (Stored Program Control System) which contains trade secret information and which is available to authorized addresses only.

1.05 A solid triangle (▲) indicates a Task Oriented Practice (TOP). These Practices, because of their limited need, will have selective distribution within coded distribution. Additional copies may be obtained by placing regular (one-time) orders.

1.06 A heart (♥) indicates a new or reissued Practice which because of its limited need, will have selective distribution within coded distribution. Additional copies may be obtained by placing regular (one-time orders).

1.07 A spade (♠) indicates a Practice not available on microfiche. This index indicates the latest issue for hard-copy Practices. In some cases, the microfiche Practice will reflect the next higher issue as a result of the reduced distribution interval of the microfiche version.

1.08 “Add” is the abbreviation for Addendum.

1.09 “App” is the abbreviation for Appendix.

2. Layers

2.01 This division is arranged in layers and sublayers as follows:

- 233-0 3ESS Switch — General Description
- 020 Network Switched Services (Administration and Maintenance) Methods
- 060 Network Design
