

CABLING METHODS - CENTRAL OFFICE
RELAY RACK EQUIPMENT

1. GENERAL

1.01 This addendum to Issue 1 of this section clarifies Note 3 of Figure 5.

1.02 Microfiche Copy Recipients. Remove Issue 1 of this section from the file and replace it with the microfiche copy identified as Issue 1, Addendum 1. Changes are marked in the replacing copy.

1.03 Paper Copy Recipients. File this copy directly in front of the addended section.

1.04 GTE AE practices are used by GTE employees for operating and maintaining the equipment GTE AE manufactures and sells. These practices may change or may not be suitable in a specific situation and so are recommended as suggested guidelines only. GTE AE hereby disclaims any responsibility and/or liability for any consequential or inconsequential damages that may result from the use of such practices unless such practices are utilized in conjunction with the operation and maintenance of original equipment manufactured or sup-

plied by GTE AE and covered by its standard warranty. GTE AE acknowledges that the customer's special requirements policy/practices may take precedence over those supplied by GTE AE if conflicts develop during installation and ongoing operation.

1.05 This document is provided with the understanding that it shall not be copied or reproduced in whole or in part or disclosed to others without the prior written permission of GTE Automatic Electric Incorporated.

2. CHANGES

2.01 In Figure 5, change NOTE 3 to read as follows:

3. Blocks should be held as far left as possible during connecting phase. Sufficient slack should be given to the conductors from the form to the fanning strip to allow for the swivel of the block.

2.02 Change paragraph 2.08 to read as follows: Cable relay racks as illustrated in Figure 5.
