

**TEST LINE OUTAGE REFERRAL—DIRECTORY**  
**GENERAL INFORMATION**  
**TRANSMISSION TEST LINE DIRECTORIES**

**1. GENERAL**

**1.01** This section provides a list of numbers for referring test line outages.

**1.02** This section is reissued to update the Directory found in Part 2 of this section. Changes have been made to the telephone numbers listed in the "Operating Telephone Company Test Lines—Referrals Number" column for the following Test Line Numbering Plan Area (NPA) numbers: 205, 209, 218, 308, 319, 402, 408, 415, 507, 515, 601, 605, 612, 701, 702, 707, and 712. Also included are changes to the telephone numbers listed in the "Long Lines Test Lines—Referrals Number" column for the following "Test Line NPA" numbers: 319 (deleted), 402, 515, and 612. Arrows are used to show changed telephone numbers.

**1.03** Separate numbers are provided in some NPAs for test lines belonging to Long Lines. For test lines maintained by the associated companies, the number listed belongs in most cases to the Central-

ized Automatic Reporting on Trunks (CAROT) center, and is listed in the "Operating Telephone Company Test Lines—Referrals Number" column.

**1.04** For NPAs served by more than one CAROT center, the toll centers served by each CAROT center are listed. In order to determine the end offices under each toll center, refer to Section 301-(NPA)-100 (Test Line Directory for the NPA).

**1.05** Administrative guidelines for the referral of defective test lines, and the updating of this directory are contained in Section 302-100-200.

**2. DIRECTORY**

**2.01** The following Directory lists the test line NPA and the test lines referrals telephone number of the operating telephone company and, where applicable, the Long Lines test lines referrals telephone number.

**NOTICE**

Not for use or disclosure outside the  
Bell System except under written agreement
