

43A1 VOICE-FREQUENCY CARRIER TELEGRAPH (VFCT) SYSTEM (J70112-)

INSTALLATION AND CONNECTION

1. GENERAL

1.001 This addendum supplements Section 312-700-200, Issue 1.

1.002 This addendum is issued to add a note pertaining to the use of option WY in 62.5 mA neutral channel terminals equipped with the 262-type switch and 4143B network to Table D.

3. INSTALLATION

The following change applies to Part 3 of this section:

- Add the following note to Table D.

Note: When the 262C switch and 4143B network are used in a 62.5 mA neutral channel terminal, the channel terminal must be equipped with option WY of SD-70552-01.
