

THIS SECTION IS A COVER SHEET FOR THE MANUFACTURER'S MANUAL. ATTACH THIS SECTION TO IT.

STATE OF CALIFORNIA  
ATSS/DS  
DISC SYSTEM  
(M3210)

1. GENERAL

1.01 This section is a cover sheet for the WANGCO 200 TPI Series-T Magnetic Disc Drive — Operation and Maintenance Manual 300765E. (GAEL 1695 authorizes the use of this equipment in Pacific Company.)

1.02 The manual contains information for the proper installation, operation, and maintenance of the WANGCO 200 TPI Series-T Magnetic Disc Drive.

1.03 Magnetic Disc Drive 200 TPI will be used as part of the Network Management System (NMS) to store temporary files of traffic and network operations for the State of California's Automatic Telecommunications Switching System — Data Services (ATSS/DS) System.

1.04 Copies of the instruction are supplied with the initial installation. To obtain additional copies, order direct from:

Computer Transmission Corporation  
2352 Utah Avenue  
El Segundo, CA 90245

*Note:* Due to the expense of this manual, it is recommended that only those locations having maintenance responsibility for this equipment be authorized additional copies if required.

1.05 If corrections are required in the manufacturer's manual, use Form E 3973-1PT (described in Section 000-010-901PT) to process the correction information.

2. MAINTENANCE

2.01 Field repairs that involve replacement of components within this unit are not recommended.

2.02 Periodic maintenance of this unit is limited to that described in Section IV, Part 3 — "Preventive Maintenance". The more involved maintenance under Part 4 — "Corrective Maintenance" will be performed by a local contractor when required.

2.03 If equipment design and/or manufacturing problems should arise, use Engineering complaint procedures outlined in Section 010-700-010PT.
