1. GENERAL

1.001 This addendum supplements Section 314-913-115, Issue 1. Place this pink sheet ahead of Page 1 of the section.

1.002 This addendum is issued for the following reasons:

- (a) To change the section title
- (b) To add information regarding the nonredundant timing input of the D-type channel bank bay
- (c) To add a warning about the consequences of removing the power unit when the office is equipped for dataport operation
- (d) To add a warning about the consequences of removing circuit packs HL-58 and HL-59 when the office is equipped for dataport operation
- (e) To change a signal level in the top, left-hand corner of Fig. 2
- (f) To delete information that does not pertain to the references in paragraph 4.01
- (g) To change a section number and section title in paragraph 4.01 in the list of references.

2. CHANGES TO SECTION

2.001 On Page 1, change the section title to Secondary Timing Supply, Description, Digital Data System.

2.002 On Page 3 at the end of paragraph 2.04, add the following: An exception is a D-type channel bank bay equipped for dataport operation which has nonredundant timing inputs.

2.003 On Page 3 at the end of paragraph 2.04, add the following:

**Warning 1: Whenever the 74A or 78A power unit is removed, all dataport channels within a specific office connected to the A-side or B-side taps of the timing supply are dropped from service.**

2.004 On Page 3 at the end of paragraph 2.04 after Warning 1, add the following:

**Warning 2: When circuit packs HL-58 and HL-59 are removed, all dataport channels connected to the timing supply will drop out of service.**

2.005 On Page 3 in the top, left-hand corner of Fig. 2, change D5-1 to DS-1.

2.006 On Page 10, delete the second sentence in paragraph 4.01.

2.007 On Page 12, change section number 365-200-110 to 365-301-101. Change the title to DSX-1, DSX-1C, and DSX-2 Patch and Cross-Connect—General Description.
